

TERRAIN MINERALS LTD COMMENCES EXPLORATION PROGRAM

Terrain Minerals Limited (ASX: TMX) announces that following the company's listing on 23 March 2006 it has commenced its exploration program. This program targets the company's three initial key projects.

Celtic

A 2000 metre RC drilling program to test extensions of known ore positions, adjacent to the Celtic and Wonder North open pits, commenced on 29 March 2006. The first drilling results are expected in approximately two weeks.

Coogee

A moving loop TEM geophysical survey to test a nickel target will commence on or about 31 March 2006.

Redcastle

Geological mapping and rock chip sampling of the extensive historical workings commenced on 28 March 2006.
