Before continuing, please read the following

This Presentation has been prepared by Torque Metals Limited (ACN 621 122 905) ("Torque" or "the Company") solely for information purposes.

This Presentation, including the information contained in this disclaimer, is not a prospectus and does not constitute an offer to sell, or the solicitation of an offer to buy, nor shall there be any sale of securities in any state or other jurisdiction in which such offer, solicitation or sale would be unlawful under applicable law, including the United States Securities Act of 1933, as amended (**US Securities Act**). Securities have not been registered under the US Securities Act or any US state securities laws and may not be offered or sold in the United States, an absent registration or an applicable exemption from registration under the Securities Act and applicable state securities laws.

The Company has prepared this Presentation based on information available to it at the time of preparation. All exploration results within this presentation have been previously reported, there is no new information or data materially affecting the exploration results. None of the Relevant Persons have independently verified the data contained in this Presentation. The information contained in this Presentation does not purport to be comprehensive. No representation nor warranty is made as to the fairness, accuracy or completeness of the information, opinions and conclusions contained in this Presentation or any other information provided by the Company.

You cannot assume that the information in this Presentation will be updated at any time subsequent to the date of this Presentation. The distribution of this Presentation does not constitute a representation by any Relevant Person that the information will be updated at any time after the date of this Presentation. Except to the extent required by law, no Relevant Person undertakes to advise any person of any information coming to their attention relating to the financial condition, status or affairs of the Company.

To the maximum extent permitted by law, the Relevant Persons are not liable for any direct, in director consequential loss or damage suffered by any person as a result of relying on this Presentation or otherwise in connection with it.

Statements of past performance: This Presentation includes information regarding the past performance of the Company. Investors should be aware that past performance is not indicative of future performance. Statements of numbers and financial performance: All financial amounts contained in this Presentation are expressed in Australian currency, unless otherwise stated. Any discrepancies between totals and sums of components in tables contained in this Presentation are due to rounding.

Reporting of mineral resources and reserves: This Presentation includes mineral resource information prepared by "competent persons" in accordance with the Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves (**JORC Code**). Where used in this Presentation, the terms "resource", "reserve", "proven reserves", "probable reserves", "inferred resources", "indicated resources" and "measured resources" have the meanings given to them in the JORC Code.

Forward-looking statements: This Presentation contains forward-looking statements concerning the Company's business, operations, financial performance and condition as well as the Company's plans, objectives and expectations for its business, operations, financial performance and condition. Any statements contained in this Presentation that are not of historical facts may be deemed to be forward-looking statements. You can identify these statements by words such as "aim", "anticipate", "assume", "believe", "could", "due", "estimate", "expect", "goal", "intend", "may", "objective", "plan", "predict", "potential", "positioned", "should", "target", "will", "would" and other similar expressions that are predictions of or indicate future events and future trends. These forward-looking statements are based on current expectations, estimates, forecasts and projections about the Company's business and the industry in which the Company operates and management's beliefs and assumptions. These forward-looking statements are not guarantees of future performance or development and involve known and unknown risks, uncertainties and other factors, many of which are beyond the Company's control. As a result, any or all of the forward-looking statements in this Presentation may turn out to be inaccurate. Factors that may cause such differences or make such statements inaccurate include, but are not limited to, the risk factors described in this Presentation. Readers of this Presentation are urged to consider these factors carefully in evaluating the forward-looking statements set out in this Presentation and are cautioned not to place undue reliance on such forward-looking statements. Unless required by law, the Company does not intend to publicly update or revise any forward-looking statements to reflect new information or future events or otherwise. These forward-looking statements speak only as at the date of this presentation. Save as required by applicable law or regulation the company expressly disclaims any obligation or undertaking to disseminate any updates or revisions to any forward-looking statements contained herein to reflect any change in the company's expectations with regard thereto or any change in events, conditions or circumstances on which such statements are based. As a result of these factors, the events described in the forward-looking statements in this presentation may not occur. Nothing in this Presentation constitutes the provision of financial or legal advice.

New Dawn Lithium Project

Adjacent to Existing Lithium Mining Operation

- Bald Hill Mine capable of producing concentrate of high lithium (+6% Li_2O), low iron (<0.5% Fe) and low mica (<0.5%) and significant tantalum by-product.
- Bald Hill total lithium MRE of **26.5Mt** at **1.0% Li_2O** , 149ppm Ta_2O_5
- Additional tantalum MRE of 4.4Mt at 336ppm Ta_2O_5 .

Refer to ASX announcement 5 Sept 2023. Option to Acquire Known Lithium and Gold Exposure in WA Mineral Resources Bald Hill MRE: TAW ASX Announcement 6 June 2018: Lithium Ore Reserve Increase at Bald Hill

8–14 Mt @ 1.0–1.2% Li₂O

- Highlights potential for continued lithium mineralisation along New Dawn trend
- Guides Torque towards an initial Mineral Resource Estimate
- **Encompasses only 40% of two development-ready mining licences**, with obvious scope for mineral inventory expansion
- 8,000m of RC drilling completed and 1,000m of diamond drilling aimed at extending vertically stacked pegmatites open in all directions

Refer to ASX announcement 8 Feb 2024. Exploration Target for New Dawn Lithium Project

High-Grades Returned from Drilling at New Dawn

19 RC and 2 DD intersected high-grade lithium lodes, with **peak grade of 4.42% Li₂O**

35m (cumulative) lithium mineralised pegmatites intersected in one hole

Significant intercepts included:

- 10m @ 1.51% Li₂O, including 1m @ 3.99% Li₂O
- 10m @ 1.15% Li₂O, including 5m @ 2.15 % Li₂O
- 12m @ 1.00% Li₂O, including 2m @ 2.04% Li₂O
- 8m @ 1.09% Li₂O, including 1m @ 3.66% Li₂O
- 7m @ 1.01% Li₂O, including 3m @ 1.91% Li₂O

Refer to ASX announcement 7 December 2023 and 14 March 2024. Assays Confirm High Grade Lithium at New Dawn, High-Grade Lithium Hits at New Dawn

Upcoming News

- About 10,000m RC and DD assay results
- Maiden MRE Paris Gold Project
- Exploration Target Paris Gold Project
- Paris Gold Project new drill campaign
- Continue to advance strategic New Dawn Lithium Project with potential resource drilling, maiden MRE and strategic partnership discussions

Invest in a dynamic, well funded explorer

Capital Structure and Experienced Board

Decades of experience in exploration and driving value for shareholders

Located in WA's Premier Mineral Fields

12 Pre-Native Title development ready Mining Licences across tenure Several process plants proximate to the project areas

Dominant Regional Position, Penzance Camp

Exploring tested Lithium and Gold tenures, potentially uncovering significant mineralisation structures

Exploration Efficiency and Innovation

Efficient proven discovery methodology combining drilling results with machine learning algorithms & geological interpretation
