**NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2006**

**NOTE 1: STATEMENT OF SIGNIFICANT ACCOUNTING POLICIES**

This financial report is a general purpose financial report that has been prepared in accordance with Accounting Standards, Urgent Issues Group Interpretations, other authoritative pronouncements of the Australian Accounting Standards Board and the Corporations Act 2001.

The following is a summary of the material accounting policies adopted in the preparation of the financial report. The accounting policies have been consistently applied, unless otherwise stated, with all balances being presented in Australian dollars. Comparative information is reclassified where appropriate to enhance comparability.

The financial report covers the economic entity of Tel.Pacific Pty Limited as an individual parent entity and Tel.Pacific Pty Limited and the controlled entities as an economic entity. Tel.Pacific Pty Limited is a company limited by shares, incorporated and domiciled in Australia.

**(a) Basis of Preparation**

**First-time Adoption of Australian Equivalents to International Financial Reporting Standards**

Tel.Pacific Pty Limited and the controlled entities, and Tel.Pacific Pty Limited as an individual parent entity have prepared financial statements in accordance with Australian Equivalents to International Financial Reporting Standards (AIFRS) from 1 January 2005.

In accordance with the requirements of AASB 1: First-time Adoption of Australian Equivalents to International Financial Reporting Standards, adjustments to the parent entity and consolidated entity accounts resulting from the introduction of International Financial Reporting Standards (IFRS) have been applied retrospectively to 2005 comparative figures excluding cases where optional exemptions available under AASB1 have been applied. These consolidated accounts are the first financial statements of Tel.Pacific Pty Limited to be prepared in accordance with AIFRS.

The accounting policies set out below have been consistently applied to all years presented. The parent and consolidated entities have however elected to adopt the exemptions available under AASB 132: Financial Instruments - Disclosure and Presentation, and AASB 139: Financial Instruments - Recognition and Measurement. Refer to Note (g) for further details.

Reconciliations of the transition from previous Australian GAAP have been included in Note 2 to this report.

**Reporting Basis and Conventions**

The financial report has been prepared on an accruals basis and is based on historical costs and does not take into account changing money values or, except where stated, current valuations of non-current assets. Cost is based on the fair values of the consideration given in exchange for assets.

**(b) Principles of Consolidation**

A controlled entity is any entity Tel.Pacific Pty Limited has the power to control the financial and operating policies of an entity so as to obtain benefits from its activities.

A list of controlled entities is contained in Note 11 to the financial statements. All controlled entities have a June year end.

All intercompany balances and transactions between entities in the economic entity, including any unrealised profits or losses, have been eliminated on consolidation. Accounting policies of subsidiaries are as applied by the parent entity.

Where controlled entities have entered or left the economic entity during the year, their operating results have been included/excluded from the date control was obtained or until the date control ceased.

**NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2006**

**NOTE 1: STATEMENT OF SIGNIFICANT ACCOUNTING POLICIES (continued)**

**(c) Income Tax**

The entity adopts the liability method of tax effect accounting whereby the income tax expense is based on the operating profit adjusted for any permanent differences.

Timing differences which arise due to the different accounting periods in which items of revenue and expense are included in the determination of accounting profit and taxable income, are brought to account as either a provision for deferred income tax or as a future income tax benefit at the rate of income tax applicable to the period in which the benefit will be received or the liability will become payable.

Future income tax benefits are not brought to account unless realisation of the asset is assured beyond any reasonable doubt. Future income tax benefits in relation to tax losses are not brought to account unless there is virtual certainty of realisation of the benefit.

The amount of benefits brought to account or which may be realised in the future is based on the assumption that no adverse change will occur in income taxation legislation, and the anticipation that the company will derive sufficient future assessable income to enable the benefit to be realised and comply with conditions of deductibility imposed by the law.

TEL.PACIFIC Pty Limited is responsible for recognising the current and deferred tax assets and liabilities for the consolidated group.

**(d) Inventories**

Inventories are measured at the lower of cost and net realisable value.

**(e) Property, Plant and Equipment**

Each class of property, plant and equipment is carried at cost or fair value less, where applicable, any accumulated depreciation and impairment losses.

**Property**

Freehold land and buildings are shown at their fair value (being the amount for which an asset could be exchanged between knowledgeable willing parties in an arm's length transaction), based on periodic, but at least triennial, valuations by external independent valuers, less subsequent depreciation for buildings.

Any accumulated depreciation at the date of valuation is estimated against the gross carrying amount of the asset and the net amount is restated to the revalued amount of the asset.

Increases in the carrying amount arising on revaluation of land and buildings are credited to a revaluation reserve in shareholders equity. Decreases that offset previous increases of the same asset are charged against fair value reserves directly in equity. All other decreases are charged to the income statement. Each year the difference between depreciation based on the revalued carrying amount of the asset charged to the income statement and depreciation based on the assets original cost is transferred from the revaluation reserve to retained earnings.

**NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2006**

**NOTE 1: STATEMENT OF SIGNIFICANT ACCOUNTING POLICIES (continued)**

**Plant and Equipment**

Plant and Equipment are measured on the cost basis less depreciation and impairment losses.

The carrying amount of plant and equipment is reviewed annually by directors to ensure it is not in excess of the recoverable amount from these assets. The recoverable amount is assessed on the basis of the expected net cash flows which will be received from the assets employment and subsequent disposal. The expected net cash flows have not been discounted to their present values in determining recoverable amounts.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the group and the cost of the item can be measured reliably. All other repairs and maintenance are charged to the income statement during the financial period in which they are incurred.

**Depreciation**

The depreciable amount of all fixed assets including buildings and capitalised lease assets, but excluding freehold land, is depreciated on a straight line basis over their useful lives to the economic entity commencing from the time the asset is held ready for use. Leasehold improvements are depreciated over the shorter of either the unexpired period of the lease or the estimated useful lives of the improvements.

The depreciation rates used for each class of depreciable assets are:

| Class of Fixed Asset   | Depreciation Rate |
|------------------------|-------------------|
| Buildings              | 2%                |
| Leasehold Improvements | 13%               |
| Plant and Equipment    | 20% - 27%         |
| Motor Vehicles         | 15%               |

**(f) Leases**

Leases of fixed assets where substantially all the risks and benefits incidental to the ownership of the asset, but not the legal ownership, are transferred to entities in the economic entity are classified as finance leases.

Finance leases are capitalised, recording an asset and a liability equal to the present value of the minimum lease payments, including any guaranteed residual values. Lease payments are allocated between the reduction of the lease liability and the lease interest expense for the period.

Leased assets are depreciated on a straight line basis over the shorter of their useful lives or the lease term.

Lease payments are for operating leases, where substantially all the risks and benefits remain with the lessor, are charged as expenses in the period in which they are incurred.

Lease incentives under operating leases are recognised as a liability and amortised on a straight line basis over the life of the lease term.

**NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2006**

**NOTE 1: STATEMENT OF SIGNIFICANT ACCOUNTING POLICIES (continued)**

**(g) Financial Instruments**

**Recognition**

Financial instruments are initially measured at cost on trade date, which includes transaction costs, when the related contractual rights or obligations exist. Subsequent to initial recognition these instruments are measured as set out below:

**Financial Assets at Fair Value through Profit and Loss**

A financial asset is classified in this category if acquired principally for the purpose of selling in the short term or if so designated by management and within the requirements of AASB139: Recognition and Measurement of Financial Instruments.

Realised and unrealised gains and losses arising from changes in the fair value of these assets are included in the income statement in the period in which they arise.

**Loans and Receivables**

Loans and receivables are non derivative financial assets with fixed or determinable payments that are not quoted on an active market and are stated at amortised cost using the effective interest rate method.

**Held to Maturity Investments**

These investments have fixed maturities, and it is the group's intention to hold these investments to maturity. Any held to maturity investments held by the group are stated at amortised cost using the effective interest rate method.

**Available for Sale Financial Assets**

Available for sale financial assets include any financial assets not included in the above categories. Available for sale financial assets are reflected at fair value. Unrealised gains and losses arising from changes in fair value are taken directly to equity.

**Financial Liabilities**

Non derivative financial liabilities are recognised at amortised cost, comprising original debt less principal payments and amortisation.

**Impairment**

At each reporting date, the group assesses whether there is objective evidence that a financial instrument has been impaired. For the case of available for sale financial instruments, a prolonged decline in value of the instrument is considered to determine whether an impairment has arisen. Impairment losses are recognised in the income statement.

**(h) Impairment of Assets**

At each reporting date, the group reviews the carrying values of assets to determine whether there is indication that those assets have been impaired. If such an indication exists, the recoverable amount of the asset, being the higher of the asset's fair value less costs to sell and value in use, is compared to the asset's carrying value. Any excess of the asset's carrying value over its recoverable amount is expensed to the income statement.

Where it is not possible to estimate the recoverable amount of an individual asset, the group estimates the recoverable amount of the cash generating unit to which the asset belongs.

**NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2006**

**NOTE 1: STATEMENT OF SIGNIFICANT ACCOUNTING POLICIES (continued)**

**(i) Intangibles**

**Goodwill**

Goodwill and goodwill on consideration are initially recorded at the amount by which the purchase price for a business or for an ownership interest in a controlled entity exceeds the fair value attributed to its net assets at date of acquisition. Goodwill on acquisition of subsidiaries is included in intangible assets. Goodwill on acquisition of associates is included in investments in associates. Goodwill is tested annually for impairment and carried at cost less accumulated impairment losses. Gains and losses on the disposal of an entity include carrying amount of goodwill relating to the entity sold.

**Research and Development**

Expenditure during the research phase of the project is recognised as an expense when incurred. Development costs are capitalised only when technical feasibility studies identify that the project will deliver future economic benefits and these benefits can be measured reliably.

Development costs have a finite life and are amortised on a systematic basis matched to the future economic benefits over the useful economic life of the project.

**(j) Foreign Currency Transactions and Balances**

**Functional and Presentational Currency**

The functional currency of each group entity is measured using the currency of the primary economic environment in which the entity operates. The consolidated financial statements are presented in Australia dollars which is the parent entity's functional and presentational currency.

**Transactions and Balances**

Foreign currency transactions are translated into functional currency using the exchange rates prevailing at the date of the transaction. Foreign currency monetary items are translated at the year end exchange rate. Non monetary items measured at historical cost continue to be carried at the exchange rate at the date of the transaction. Non-monetary items measured at fair value are reported at the exchange rate at the date when fair values were determined.

Exchange differences arising on the translation of monetary items are recognised in the income statement.

Exchange differences arising on the translation of non-monetary items are recognised directly in equity to the extent that the gain or loss is directly recognised in equity, otherwise the exchange difference is recognised in the income statement.

**Group Companies**

The financial results and position of foreign operations whose functional currency is different from the group's presentational currency are translated as follows:

- Assets and liabilities are translated at year end exchange rates prevailing at the reporting date.
- Income and expenses are translated at average exchange rates for the period.
- Retained earnings are translated at the exchange rates prevailing at the date of the transaction.

Exchange differences arising on translation of foreign operations are transferred directly to the group's foreign translation reserve in the balance sheet. These differences are recognised in the income statement for the period the operation is disposed.

**NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2006**

**NOTE 1: STATEMENT OF SIGNIFICANT ACCOUNTING POLICIES (continued)**

**(k) Employee Benefits**

**Annual Leave/Long Service Leave**

Provision is made for the company's liability for employee benefits arising from services rendered by employees to balance date. Employee benefits that are expected to be settled within one year have been measured at the amounts expected to be paid when the liability is settled, plus related on-costs. Employee benefits payable later than one year have been measured at the present value of the future cash outflows to be made for those benefits.

**Employee Benefits on Cost**

Contributions are made by the economic entity to employee superannuation funds and are charged as expenses when incurred.

**Share-based Payments**

Share-based compensation benefits are provided to employees via TEL.PACIFIC's share based payment scheme. The fair value of share issued is recognised as an employee benefit expense with a corresponding increase in equity. The fair value is determined by the directors in office at the date of issue.

**(l) Provisions**

Provisions are recognised when the group has a legal or constructive obligation, as a result of past events, for which it is probable that an outflow of economic benefits will result and that outflow can be reliably measured.

**(m) Cash and Cash Equivalents**

Cash and cash equivalents include, cash on hand, deposits held at call with banks. Other short term highly liquid investments with original maturities of three months or less, and bank overdrafts. Bank borrowings in overdrafts are shown within short term borrowings in current liabilities on the balance sheet.

**(n) Revenue**

Revenue from the sale of services is recognised upon delivery of services to customers.

Interest revenue is recognised on a proportional basis taking into account the interest rates applicable to the financial assets.

Dividend revenue is recognised when the right to receive a dividend has been established.

Revenue from the rendering of a service is recognised upon the delivery of the service to customers. All revenue is stated net of the amount of goods and services tax (GST).

**(o) Goods and Services Tax**

Revenues, expenses and assets are recognised net of the amount of GST, except where the amount of GST incurred is not recoverable from the Australian Taxation Office. In these circumstances the GST is recognised as part of the cost of acquisition of the asset or as part of an item of the expense. Receivables and payables in the statement of financial position are shown inclusive of GST.

(p) Comparatives

Where required by accounting standards, comparative figures have been adjusted to conform to changes in the current year.

(q) Initial Accounting Estimates and Judgments

The directors evaluate estimates and judgments incorporated into the financial report based on historical knowledge and best available current information. Estimates assure a reasonable expectation of future events and are based on current trends and economic data, obtained both externally and within the group.

**NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2006**

**NOTE 2: FIRST-TIME ADOPTION OF AUSTRALIAN EQUIVALENTS TO INTERNATIONAL FINANCIAL REPORTING STANDARDS**

For all periods up to and including the year ended 30 June 2005, the group prepared its financial statements in accordance with Australian generally accepted accounting practice (AGAAP). These financial statements for the year ended 30 June 2006 are the first the group is required to prepare in accordance with Australian Equivalents to International Financial Reporting Standards (AIFRS).

Accordingly, the group has prepared financial statements that comply with AIFRS applicable for periods beginning on or after 1 July 2005 and the significant accounting policies meeting those requirements are described in note 1. In preparing these financial statements, the group has started from an opening balance sheet as at 1 July 2004, the group's date of transition to AIFRS, and made those changes in accounting policies and other restatements required by AASB 1 First-time Adoption of AIFRS.

This note explains the principal adjustments made by the group in restating its AGAAP balance sheet as at 1 June 2004 and its previously published AGAAP financial statements for the year ended 30 June 2005.

**(a) Effect of AIFRS on the balance sheet as at 1 July 2004**

(d) Effect of AIFRS on the Cash Flow Statement for the financial year ended 30 June 2005

There are no material difference between the cash flow statement presented under AIFRS and the cash flow statement presented under the previous policies.

(e) Note to the reconciliations of income and equity

(i) Goodwill  
Under previous AGAAP, the group amortised goodwill on a straight-line basis over 20 years. AASB 3: Business Combinations does not permit amortisation of goodwill and requires annual impairment testing. The group has elected to adopt the exemption available to it under AASB 1 not to apply AASB 3 to past business combinations.

The effect of the change is a decrease of goodwill of \$26,047 and a corresponding increase in accumulated losses in the consolidated balance sheet as at 30 June 2005 and a decrease in goodwill amortisation expense of \$1,662. There is no effect on the parent entity.

## INDEPENDENT AUDIT REPORT TO MEMBERS OF TEL PACIFIC PTY LIMITED

### Scope

#### *The financial report and directors' responsibility*

The financial report comprises the income statement, balance sheet, statement of changes in equity, cash flow statement, accompanying notes to the financial statements, and the directors' declaration for Tel Pacific Pty Limited (the company) and the economic entity, for the year ended 30 June 2006. The economic entity comprises both the company and the entities it controlled during that year.

The directors of the company are responsible for the preparation and true and fair presentation of the financial report in accordance with the Corporations Act 2001. This includes responsibility for the maintenance of adequate accounting records and internal controls that are designed to prevent and detect fraud and error, and for the accounting policies and accounting estimates inherent in the financial report.

### Audit approach

We conducted an independent audit in order to express an opinion to the members of the company. Our audit was conducted in accordance with Australian Auditing Standards in order to provide reasonable assurance as to whether the financial report is free of material misstatement. The nature of an audit is influenced by factors such as the use of professional judgement, selective testing, the inherent limitations of internal control, and the availability of persuasive rather than conclusive evidence. Therefore, an audit cannot guarantee that all material misstatements have been detected.

We performed procedures to assess whether in all material respects the financial report presents fairly, in accordance with the Corporations Act 2001 including compliance with Accounting Standards and other mandatory financial reporting requirements in Australia, a view which is consistent with our understanding of the company's and consolidated entity's financial position, and of their performance as represented by the results of their operations and cash flows.

We formed our audit opinion on the basis of these procedures, which included:

- examining, on a test basis, information to provide evidence supporting the amounts and disclosures in the financial report, and
- assessing the appropriateness of the accounting policies and disclosures used and the reasonableness of significant accounting estimates made by the directors.

While we considered the effectiveness of management's internal controls over financial reporting when determining the nature and extent of our procedures, our audit was not designed to provide assurance on internal controls.

## Independence

In conducting our audit, we followed applicable independence requirements of Australian professional ethical pronouncements and the Corporations Act 2001. In accordance with ASIC Class Order 05/83, we declare to the best of our knowledge and belief that the auditor's independence declaration set out on page 3 of the financial report has not changed as at the date of providing our audit opinion.

## Audit opinion

In our opinion, the financial report of Tel Pacific Pty Limited and its controlled entities is in accordance with:

- (a) the Corporations Act 2001, including:
  - i) giving a true and fair view of the company's and economic entity's financial position as at 30 June 2006 and of their performance for the year ended on that date; and
  - ii) complying with Accounting Standards in Australia and the Corporations Regulations 2001; and
- (b) other mandatory professional reporting requirements in Australia.
