Tissue Repair ("TRP") MARCH 2024 APPENDIX 4C

30 April 2024 - Tissue Repair Limited (ASX:TRP, TR or the Company) is pleased to update the market on its progress in the March 2024 quarter and attaches its Appendix 4C Quarterly Cashflow Report for the period.

Key Highlights and Update

TR-987[®] for chronic wounds -On track for Phase 3 commencement

- Two lots of the Glucoprime[®] API have been produced to support the Phase 3 trial and a TGA application for TR Pro+[™].
- A TGA application for TR Pro+[™] as an Australian Listed Medicine is being collated for submission by June 2024.
- Validation work for most of the remaining tests has been completed and both lots of GMP Glucoprime[®] API have been placed on the stability program.
- The FDA written response to our Type C meeting was received earlier than expected (late February 2024) and provided further clarity on the Phase 3 trial requirements, all of which are being reflected in an updated protocol.
- Clinical trial site outreach is continuing in both the US and Australia with some 25 sites agreeing in principle to participate and at various stages of onboarding.

TR Pro+[™] for cosmetic and medical procedures – Early success following product launch

- March recorded the highest ever monthly sales and provided an impetus to expand the sales resource through the addition of a sales manager and two territory managers in the quarter. Over 100 clinics now stock TR Pro+[™].
- Work is continuing to attain the information and documentation necessary to support TGA approval for TR Pro+[™] as an aftercare treatment for acute wounds, with indications relevant to skin repair and regeneration.

Corporate and Financial Summary

The Company's cash position was \$18.1 million as at 31 March 2024. During the March 2024 quarter total cash operating outflows were approximately \$1,394,000, largely attributed to expenses associated with the development of TR-987 and commercialisation of TR Pro+ offset by interest income.

A summary of the operating cash flow for the period 7 October 2021 to 31 March 2024 compared with the proposed use of funds in the Company's Prospectus dated 7 October 2021 is shown below:

Tissue Repair Ltd

Level 10, 255 Pitt Street, Sydney, NSW 2000

ACN: 158 411 566

	Use of Funds under Prospectus	Actual use of funds for the period ending 31 March 2024
Working capital and overheads ¹	300,000 ¹	3,263,000 ¹
Offer costs	2,300,000	1,849,000
Development of Chronic Wound Drug	3,700,000	6,404,000
Phase III Clinical Trials	13,600,000	535,000
Commercialisation of Aesthetic Product	2,100,000	1,652,000
Interest received	-	(1,010,000)
R&D tax incentive refund	-	(693,000)
TR Pro+ TM Sales receipts	-	(101,000)
Total	22,000,000	11,899,000

¹The Company raised \$7.5million via a convertible note in April 2021 (pre-IPO) which has been allocated to fund a significant portion of the working capital and overheads of the Company. The working capital and overhead cash outflows are broadly in line with the forecast budget. The Company believes the working capital outflows are consistent with the requirements for an ASX listed biotech Company of its size.

The Company expects future favourable variances of the R&D Tax incentive inflows for FY2023 and beyond, which were not included in the use of funds statement in the Prospectus. Such R&D tax incentive refunds will further extend the Company's cash runway, assisting with execution of the Company's strategy and providing a contingency should additional expenditure be needed to meet the Company's objectives for TR987[®] and TR Pro+TM.

During the period ending 31 March 2024, overall spend was lower than estimated in the use of funds as set out in the Prospectus largely due to timing differences associated with commissioning of key work streams including chemistry manufacturing and control (CMC) work for the Company's drug candidate TR-897[®] and Phase 3 preparation. The Company anticipates cash outflows in future quarters will increase in line with the acceleration of the chronic wound drug clinical program, and commercialisation of the aesthetic product.

In Accordance with Listing Rule 4.7C, payments made to related parties and their associates included in item 6.1 of the Appendix 4C was \$58,000. This includes payments for remuneration of director fees to executive and non-executive directors in the normal course of business at commercial rates including superannuation, excluding reimbursements of out-of-pocket expenses.

KEY OPERATIONAL UPDATES

1. TR987[®] DEVELOPMENT (for chronic wounds)

1.1 Manufacturing Update

Current efforts remain focussed on documenting the purification process development and outlining areas that may require further development.

The Company's recent manufacturing status is summarised in the table below:

Tissue Repair Ltd

Level 10, 255 Pitt Street, Sydney, NSW 2000

ACN: 158 411 566

Stage	Update	Status
Stage 1 Laboratory scale API	Successful production of 3 laboratory scale batches	Completed
Stage 2 Engineering API	- Successful production of 3 scaled-up engineering batches. - Production scheduled with the necessary equipment ordered. - Batch record finalised and an agreement reached with contract manufacturer. - Terminal sterilization processing	Completed
Stage 3 GMP API	Partial production of 3 GMP batches has been completed with the final stages in the manufacturing process to be completed following successful production of the engineering batches.	Completed
Stage 4 Production of API into finished gel (6-gram tubes) for Phase 3 clinical supply	- Formulation of API material into gel and filling into 6-gram tubes for the Phase 3 trial - Contract manufacturer has been appointed and is preparing pilot filling of gel product into tubes.	Expected completion Q2 2024

1.2 Analytical Update

Validation work for most of the remaining tests has been completed and both lots of GMP Glucoprime® API have been placed on the stability program. Full release testing of both lots has been completed.

1.3 CMO Update

Method validation activities for release and stability testing of the Phase 3 product have been completed and the preparation of batch records is underway. Batch manufacturing and release testing of the Phase 3 lot are expected to be completed by the end of Q2 2024.

1.4 Phase 3 VLU Trial Update

The FDA written response to the Type C meeting was received earlier than expected (late February 2024) and provided further clarity on the Phase 3 trial requirements, all of which are being reflected in an updated protocol. The key changes include:

- Clarification of investigations around hypersensitivity and clinical worsening;
- Clarification and analysis of certain endpoints, inclusion and exclusion criteria;
- Clarification around trial design, specifically addressing why a separate vehicle arm should not be included;
- Considerations around blinding of safety as well as efficacy assessment; and
- Stratification of ulcer size.

With a detailed FDA review of the protocol now completed, it is unlikely that the regulator will require any further significant changes once the study commences.

Tissue Repair Ltd

Level 10, 255 Pitt Street, Sydney, NSW 2000

ACN: 158 411 566

Clinical trial site outreach is continuing in both the US and Australia with some 25 sites agreeing in principle to participate and at various stages of onboarding.

The timing around institutional ethics reviews has necessitated a change to the scheduled first patient enrolment which is now expected mid-Q3 2024.

Next Quarter Activities

- Final validation of the analytical methods required to characterise the Glucoprime® API and TR987® hydrogel.
- Ethics submission for TR987® Study BG003 (Australia)
- Submission of the CMC update to the FDA
- Manufacture and release of the Phase 3 batch of TR987®
- Continued outreach and qualification of clinical sites in Australia and the US.
- Commencement of the pilot toxicology program and continued work on the preclinical mechanism of action studies.

2. TR Pro+™ COMMERCIALISATION (for cosmetic and medical procedures)

2.1 Commercial launch of TR Pro+™

March recorded the highest ever monthly sales and provided impetus to expand the sales resource with the addition of a sales manager and two territory managers. Sales are being fuelled via a combination of organic growth from existing accounts as well as the introduction of new accounts. The sponsorship of professional conferences in aesthetics and dermatology continues to drive product awareness as does engaging social media activity that highlight a variety of non-paid clinic testimonials for TR Pro+™.

Feedback from key customers remains incredibly positive and the range of TR Pro+™ case studies continues to expand. Activity to secure distribution through significant key accounts is ongoing, and discussions with potential pharma partners around transformational partnerships have commenced.

Work also continues to attain the information and documentation necessary to support TGA approval for TR Pro+™ as an aftercare treatment for acute wounds, with indications relevant to skin repair and regeneration.

For further information in relation to this release please contact Darryl Reed at darryl.reed@trtherapeutics.com

7.5	Unused financing facilities available at quarter end		-
7.6	Include in the box below a description of each facility above, including the lender, interest rate, maturity date and whether it is secured or unsecured. If any additional financing facilities have been entered into or are proposed to be entered into after quarter end, include a note providing details of those facilities as well.		

8.	Estimated cash available for future operating activities	\$A'000
8.1	Net cash from / (used in) operating activities (item 1.9)	(1,394)
8.2	Cash and cash equivalents at quarter end (item 4.6)	18,082
8.3	Unused finance facilities available at quarter end (item 7.5)	-
8.4	Total available funding (item 8.2 + item 8.3)	18,082
8.5	Estimated quarters of funding available (item 8.4 divided by item 8.1)	13.0
<i>Note: if the entity has reported positive net operating cash flows in item 1.9, answer item 8.5 as "N/A". Otherwise, a figure for the estimated quarters of funding available must be included in item 8.5.</i>		
8.6	If item 8.5 is less than 2 quarters, please provide answers to the following questions:	
8.6.1	Does the entity expect that it will continue to have the current level of net operating cash flows for the time being and, if not, why not?	
	Answer: N/A	
8.6.2	Has the entity taken any steps, or does it propose to take any steps, to raise further cash to fund its operations and, if so, what are those steps and how likely does it believe that they will be successful?	
	Answer: N/A	
8.6.3	Does the entity expect to be able to continue its operations and to meet its business objectives and, if so, on what basis?	
	Answer: N/A	
<i>Note: where item 8.5 is less than 2 quarters, all of questions 8.6.1, 8.6.2 and 8.6.3 above must be answered.</i>

Notes

1. This quarterly cash flow report and the accompanying activity report provide a basis for informing the market about the entity's activities for the past quarter, how they have been financed and the effect this has had on its cash position. An entity that wishes to disclose additional information over and above the minimum required under the Listing Rules is encouraged to do so.
2. If this quarterly cash flow report has been prepared in accordance with Australian Accounting Standards, the definitions in, and provisions of, *AASB 107: Statement of Cash Flows* apply to this report. If this quarterly cash flow report has been prepared in accordance with other accounting standards agreed by ASX pursuant to Listing Rule 19.11A, the corresponding equivalent standard applies to this report.
3. Dividends received may be classified either as cash flows from operating activities or cash flows from investing activities, depending on the accounting policy of the entity.
4. If this report has been authorised for release to the market by your board of directors, you can insert here: "By the board". If it has been authorised for release to the market by a committee of your board of directors, you can insert here: "By the [name of board committee – eg Audit and Risk Committee]". If it has been authorised for release to the market by a disclosure committee, you can insert here: "By the Disclosure Committee".
5. If this report has been authorised for release to the market by your board of directors and you wish to hold yourself out as complying with recommendation 4.2 of the ASX Corporate Governance Council's *Corporate Governance Principles and Recommendations*, the board should have received a declaration from its CEO and CFO that, in their opinion, the financial records of the entity have been properly maintained, that this report complies with the appropriate accounting standards and gives a true and fair view of the cash flows of the entity, and that their opinion has been formed on the basis of a sound system of risk management and internal control which is operating effectively.
