

USCOM

South East ASIA SALES UNDERWAY - 20 UNITS SOLD TO DATE

Thursday, April 8, 2004: USCOM Limited (ASX Code: UCM) announced today it had received the first orders from dealers in South-East Asia for USCOM's non-invasive cardiac output monitor.

USCOM's marketing agent for the South-East Asia region, Coefficient Systems Limited concluded distribution agreements with marketing partners in Singapore, Malaysia and the Philippines. Each of the 3 partners has placed a firm order for 1 USCOM monitor unit for subsequent on-sale to hospital customers.

This brings to 20 the total number of USCOM units sold to date.

Announcing the latest sales today, USCOM Chief Executive, Mr Gary Davey said, *"South-East Asia is an important region for the company. These initial orders demonstrate a real financial commitment on the part of our distribution partners, each of them well positioned to deliver significant sales growth in the future."*
