## FIRST EUROPE DEALER SALES – HOSPITAL INSTAL IN MACAU

Tuesday April 20, 2004: USCOM Limited (ASX Code: UCM) announced today the first sale of its ultrasonic cardiac output monitor to a medical equipment distribution partner in **Europe**.

USCOM's exclusive distributor for the UK and Ireland, Beaver Medical Plc, has purchased two USCOM machines in order to meet demand for demonstrations of the technology to hospital customers in the UK.

Beaver Medical, based in Northampton is currently presenting the USCOM system to potential customers in Intensive Care, Emergency Care and Anaesthetics.

The Chief Executive of USCOM, Mr Gary Davey said: *"For USCOM, Europe represents about one-third of the world market and we are excited that the selling process is now underway there. Having secured CE Mark regulatory approval in December, we are now clear to market our products right across Europe. We are confident that Beaver Medical will represent us well in the UK market."*

The UK order follows a series of product demonstrations and training seminars presented by the General Manager of USCOM, Mr Paul Butler, as part of a 6-week assignment to supervise the launch of USCOM in Europe.

USCOM also announced today the sale of one USCOM unit to a leading hospital in **Macau, China**. The USCOM machine was shipped this week to the Kiang Wu Hospital, where it is deployed in the Intensive Care and Accident and Emergency Departments.

The Macau installation was supervised by Mr Jules Flach, USCOM's marketing and distribution partner for North Asia.

Today's announcement brings to 23 the total number of USCOM machines ordered or shipped.
