About Vintage Energy Ltd

The natural gas supply crisis currently afflicting the eastern part of Australia and the energy market more widely have been the catalysts for the creation and ASX listing of Vintage Energy Ltd, with Reg Nelson (former Managing Director of Beach Energy) as Chairman and Neil Gibbins (former Chief Operating Officer of Beach Energy) as Managing Director. The company has acquired high quality gas exploration and appraisal assets close to infrastructure with the potential for rapid development and the promise of early cash flow. Vintage will continue to identify and seek to acquire further high-quality gas exploration and production assets with a focus on those that offer the potential for accelerated pathways to commercialization.

Oil potential in prominent onshore basins is also a key focus, particularly given the experience of Vintage Energy Ltd team members in discovering and developing oil fields on the Western Flank of the Cooper-Eromanga Basins in South Australia.
