ENERJI NOW QUOTED ON THE OTCQX MARKET

Perth based clean power company, Enerji Limited ("**Enerji**", the "**Company**", **ASX: ERJ**) advises that, further to the announcement dated 21 December 2011, the Company has today commenced trading on the OTCQX market in the US under the code ENJLY.

The primary benefit of the OTCQX quotation combined with the ADR program is to create a broader secondary market for Enerji's securities, particularly in North America, by providing better access for American investors to deal in Enerji's securities. This limits the risks and inconvenience for these investors in cross-currency transactions.

For further details on the OTCQX quotation and ADR program please refer to the announcement of the 21st December 2011.

About Enerji

Enerji Limited is a Perth-based clean power company focussed on commercialising the Opcon Powerbox in Australia.

The Opcon Powerbox cogeneration technology transforms waste heat into electricity and therefore creates significant energy cost savings and reduced CO₂ emissions for its customers.

Enerji has exclusive sales and distribution rights for the Opcon Powerbox in Australia and options for Malaysia, Thailand, Singapore, and Sub-Saharan Africa.

The Opcon Powerbox, manufactured in Sweden by Opcon, represents a significant commercial opportunity through application to industrial, mining and power generation operations.

Enerji plans to maximise this opportunity and generate shareholder returns through long-term power purchase agreements.
