ASX Release

WEBJET CONFIRMS MARCH SALES

Webjet today confirmed March gross transaction values of \$1.75 million, midway in the range of \$1.7m to \$1.8m foreshadowed in market advice 25th March 2003.

Commenting, Webjet's Managing Director, David Clarke, said, "In an overall industry which is currently reporting a negative impact on turnover of some 20% to 30%, we have managed to slightly increase March turnover from last year's \$1.7m.

"While it is too early to form accurate forecasts for April, it appears likely that April will slightly better last year's figures. We are currently achieving these levels on a sharply reduced advertising spend."

David Clarke
Managing Director
