WhiteHawk Announces Sales & Service Delivery Partnership with EZShield

EZShield is a leader in identity theft protection and business cyber security with over 15 million combined consumers, customers, and strategic partners

Highlights

- **Partnership is jointly focused on an enhanced and affordable offering for both WhiteHawk and EZShield Small and Midsize Enterprise (SME) customers.**
- **Through partnership, EZShield customers will be able to receive the WhiteHawk Cyber Risk Profile and Customer Journey as part of their EZShield subscription within the coming months.**
- **WhiteHawk SME services to the United States (US) Federal Contractors, the US Government, and financial sector entities, vendors and customers, will receive an integrated offering of EZShield Digital Identity Theft Protection and WhiteHawk Cybersecurity Exchange services.**
- **EZShield is a Pioneer and Innovator of Identify Theft & Mobile Cybersecurity solutions, with 18 years of history, over 15 Million consumers, strategic partnerships with Financial Institutions and the 2018 Identity Protection Service Provider Best-in-Class award winner bestowed by Javelin Strategy & Research.**

Perth, WA and Alexandria, VA – WhiteHawk Limited (ASX: WHK) (“WhiteHawk or “the Company”), the first global online cyber security exchange enabling Small-to-Medium Enterprises (SMEs) to take smart action against cybercrime, is excited to announce a ground-breaking integrated sales partnership with EZShield. SME customers will be able to receive both the EZShield best-in-class identity theft protection and mobile cybersecurity services and the WhiteHawk Cyber Risk Profile and Customer Journey.

EZShield offers small business protection by securing business information, proactively monitoring business and personal information, and preparing for and responding to fraud, identity crimes, and cyber threats. In 2018, the company was named as the Javelin Strategy & Research Identity Protection Service Provider Best-In-Class Award winner.

EZShield's award-winning solutions are critical for SMEs who wish to protect both their company identity and financial profile, safeguard the confidential personal information of their employees, while protecting their mobile devices from digital and cyber threats.

This partnership will enable WhiteHawk and EZShield to provide affordable risk mitigation solutions through WhiteHawk's Cyber Risk Profile. WhiteHawk's financial sector customers can receive customer bank portal access to EZShield, while the US Government and Defense Industrial Base (DIB) customers can receive seamless vendor risk services, a business credit score, and advanced dark web monitoring from EZShield.

Through this partnership, WhiteHawk is expanding their reach to potentially thousands of SMEs across all sectors in the U.S.

Terry Roberts, Executive Chair of WhiteHawk, commented, “This will be game changing for both companies, putting our online combined services at the forefront of the SME cybersecurity industry, by delivering foundational cyber resilience in an affordable and accessible way, to the measurable benefit of our respective SME customers.”

“Our shared vision for protecting the digital footprint of businesses, employees, and consumers in today’s interconnected world is the foundation for our strategic partnership with WhiteHawk,” said Rich Scott, Chief Commercial Officer (CCO) of EZShield. “We look forward to a long and rewarding collaboration with WhiteHawk, bringing increased innovation from our mobile cybersecurity and identity theft protection solutions.”

About WhiteHawk

Launched in 2016, WhiteHawk began as a cyber risk advisory service with a vision to develop the first online self-service, cyber security exchange, simplifying how companies and organizations discover, decide, and purchase cyber security solutions that directly mitigate their key cyber business risks. Today, we help US companies to connect to content, solutions, and service providers through evolving our rich data and user experience. WhiteHawk is a cloud-based cyber security exchange platform that delivers virtual consultations, Artificial Intelligence Cyber Risk Profile’s that immediately match SME customers to tailored ‘solutions on demand. The platform enables customers to leverage their tailored Security Story to find affordable and impactful cyber tools, content, and relevant services through our algorithms and expertise, to better understand how to improve and stay ahead of today’s cyber threats. The Platform enables companies to fill their needs on an ongoing basis with demonstrated cost and time savings. For more information, visit www.whitehawk.com.

About EZShield

EZShield helps enterprises of all sizes and trusted partners protect what matters most — through secure, digital identity protection and resolution services that enhance customer relationships, while adding value to existing products. As a trailblazer in Mobile Threat Defense, EZShield is the only pure-play identity theft protection company to pair its product and services with mobile cybersecurity through its Mobile Defense Suite. The company is

consistently recognized by Javelin Strategy & Research as a leader in Identity Protection, most recently as the 2018 Identity Protection Service Provider Best-in-Class award winner. Owned by the Wicks Group of Companies, L.L.C., EZShield supports thousands of financial institutions through its award-winning solutions, delivered on a secure, flexible platform that is backed by best-in-class customer support.
