

WIA GOLD

Developing Kokoseb into a leading Namibian gold mine

February 2025

Disclaimer

General Information and Disclaimer

This presentation has been prepared for the purposes of providing information to the recipient regarding Wia Gold Limited (**WiaGold** or the **Company**). It does not, and does not purport to, contain all the information that the recipient may require to evaluate the Company. It should be read in conjunction with WiaGold's other periodic and continuous disclosure announcements, which are available at www.asx.com.au.

No representation or warranty is given as to, and the recipient must not rely on, any information, statement or opinion contained in this presentation, or its accuracy, reasonableness or completeness. Except for statutory liability which cannot be excluded, each of WiaGold, its affiliates, directors, employees, advisers and agents expressly disclaims any responsibility for the accuracy or completeness of the material contained in this presentation and excludes all liability whatsoever for any loss or damage of any kind arising as a result of the use of, or reliance on, the information in this presentation.

This presentation does not take into account the investment objectives, financial situation or particular needs of any investor, potential investor or any other person. No investment decision should be made in reliance on this presentation. Independent financial and taxation advice should be sought before making any investment decision.

Forward Looking Statements

This presentation may contain certain forward looking statements and projections regarding: estimated, resources and reserves; planned production and operating costs profiles; planned capital requirements; and planned strategies and corporate objectives.

Forward-looking statements are subject to a variety of known unknown risks, uncertainties and other factors that could cause actual events or results to materially differ from those reflected

in the forward- looking statements, including, without limitation: inherent uncertainties and risks associated with mineral exploration; uncertainties related to the availability of future financing necessary to undertake activities on WiaGold's properties; uncertainties related to the possible recalculation of, or reduction in WiaGold's minerals resources; uncertainties related to the outcome of studies; uncertainties relating to fluctuations in gold prices; the risk that WiaGold's title to its properties could be challenged; risks related to WiaGold's ability to attract and retain qualified personnel, uncertainties related to general economic and global financial conditions; uncertainties related to the competitiveness of the industry; risk associated with WiaGold being subject to government regulation, including changes in regulation; risks associated with WiaGold being subject to environmental laws and regulations, including a change in regulation; risks associated with WiaGold's need for governmental licenses, permits and approvals; uninsured risks and hazards; risk related to the integration of businesses and assets acquired by WiaGold; risk associated with WiaGold having no history of earnings or production revenue; risks associated with fluctuation in foreign exchange rates; risks related to default by joint venture parties (if any), contractors and agents, inherent risks associated with litigation; risk associated with potential conflicts of interest; risk related to effecting service or process on directors resident in foreign countries; uncertainties related to WiaGold's limited operating history; risks related to WiaGold's lack of a dividend history; risks relating to short term investments; and uncertainties related to fluctuations in WiaGold's share price.

WiaGold's forward-looking statements are based on the assumptions, beliefs, expectations and opinions of management as of the date hereof and which WiaGold believes are reasonable in the circumstances, but no assurance can be given that these expectations will prove to be correct. These assumptions include but are not limited to that WiaGold's exploration of its properties and other activities will be in accordance with WiaGold's public statements and stated goals, that there will be no material adverse change affecting WiaGold or its properties, anticipated

costs and timing for WiaGold's activities and such other assumptions as set out herein.

Such forward looking statements/projections are estimates for discussion purposes only and should not be relied upon. They are not guarantees of future performance and involve known and unknown risks, uncertainties and other factors many of which are beyond the control of the Company.

The forward-looking statements/projections are inherently uncertain and may therefore differ materially from results ultimately achieved.

The Company does not make any representations, provides no warranties concerning the accuracy of the forward looking statements and disclaims any obligation to update or revise any forward-looking statements based on new information, future events or otherwise except to the extent required by applicable laws.

Mineral Resource Estimate

The information in this presentation that relates to the mineral resource estimate for the Kokoseb Project was reported in an announcement dated 16 April 2024. The Company confirms that it is not aware of any new information or data that materially affects the information included in the original market announcement and that all material assumptions and technical parameters underpinning the mineral resource estimate in that announcement continue to apply and have not materially changed.

Previously Reported Results

There is information in this presentation relating to exploration results which were previously announced, the dates of which are referenced in the presentation. The Company confirms that it is not aware of any new information or data that materially affects the information included in the original market announcements.

WIA GOLD

INVESTMENT HIGHLIGHTS

WIA: ASX

Transformational
Kokoseb gold
discovery

Inferred MRE 2.12 Moz
at 1.0 g/t Au from
greenfields discovery

Growth drilling to
drive substantial
targeted MRE uplift

Aggressive further
growth drilling
delivering strike and
depth success

Initiate Scoping Study
work and advance the
project towards DFS

Commencement of all
required planning to
advance the Kokoseb
Gold Project initially to
Scoping Study
completion in 2025

Straightforward
metallurgy and
process route

Preliminary met
testwork delivers
over 91% gold
recoveries

Established, well
recognised mining
jurisdiction

Stable jurisdiction,
excellent
infrastructure
attracting significant
investment capital

Strategic
exploration
project pipeline

Three permitted
project areas in
Côte d'Ivoire with
drill-ready
targets

Harness value from current asset portfolio

Expand and improve existing resource base in Namibia

Namibia

- Continue to expand and improve the 2.12m oz Kokoseb discovery
- Advance Kokoseb to DFS and then build the mine
- Aggressive expansion of licence footprint in Namibia
- Deliver additional discoveries and become a multi-goldmine operator

Côte d'Ivoire

- 37,500m auger drilling programme to commence in February 2025 over multiple prospects
- Exploring for another significant gold discovery

Board and key management

Experienced leadership team with a proven track record of discovery & development

Josef El-Raghy
Executive Chairman

Previously Chairman and CEO of Centamin Plc, a gold miner that he guided from **exploration, financing, development and into production**, which saw its market cap to grow from US\$20 million to \$4bn. AngloGold Ashanti acquired Centamin for \$2.5bn in late 2024. Josef is currently Non-Exec Chair of AIC Mines, a gold and copper producer in Queensland.

Andrew Pardey
Non-Executive Director

Currently Managing Director at Predictive Discovery, a c. A\$1bn ASX listed gold exploration company, which discovered Bankan in Guinea. Andrew has over 30 years' experience in **exploration, project development and operations**. Previously CEO of Centamin Plc (2015-19), he has held senior positions in West Africa with Guinor Gold Corporation and AngloGold Ashanti.

Mark Arnesen
Non-Executive Director

Mark is a Chartered Accountant with over 30 years' experience in the international resources industry and extensive expertise in the **structuring and negotiation of finance for major resource projects**. Mark has held executive roles with Billiton/Gencor, AngloGold Ashanti, Equinox Minerals Limited, Gulf Industrials Limited and Nzuri Copper Limited.

Scott Funston
Chief Financial Officer

Scott has a broad range of resource industry experience through all facets of the mining cycle from **acquisition, exploration, discovery, feasibility, financing, construction and operations**. Scott has proven executive level experience in several ASX listed public companies operating in a variety of diverse countries and cultures having assisted several resources companies operating throughout Australia, South America, Asia, USA, and several years with African based companies, including Challenger Gold and Avanco Resources.

Pierrick Couderc
Exploration Manager

Pierrick has over 20 years' experience in a range of commodities and geological settings. Pierrick discovered Kokoseb in 2021. Prior to Wia, he served as the Côte d'Ivoire Exploration Manager for Centamin Plc. Notably, he **led the team which discovered the 5.4Moz Doropo Project and the 2.2Moz ABC Project**. Pierrick is a French national and fluent in both English and French.

Joanna Kiernan
Company Secretary

Joanna is a governance professional with over **18 years' experience in the operation and administration of publicly listed companies, primarily in the resources sector**. Ms Kiernan has held the role of Company Secretary for numerous ASX, AIM and SGX listed companies. Ms Kiernan is currently the Company Secretary of Asara Resources Limited and Marvel Gold Limited.

Exploration, Discovery, Development, Financing, and into Production

Track Record of Wia Team in Africa

Exploration, Financing, Development and into Production

Status	In production	In production	In production	PFS	DFS
Average Production	450,000 oz pa	200,000 oz pa	200,000 oz pa	280,000 oz pa	207,000 oz pa
Resource	15.0 Moz	7.78 Moz	2.14 Moz	5.3Moz	5Moz

WIA Overview

Kokoseb & Namibia

POLITICALLY STABLE & MINER FRIENDLY

- Stable democracy, independent judiciary, diverse economy
- Political and social support of mining with stated ambitions to develop mineral resources
- Namibia is a low-risk jurisdiction, ranked 26/62 by the Fraser Institute 2022 Survey of Mining Companies for policy attractiveness (above British Columbia, Queensland, Victoria, Yukon and Guyana)

OUTSTANDING INFRASTRUCTURE

- The Kokoseb project has road access from the capital Windhoek
- Benefiting from access to modern port, rail and power

NAMIBIA'S GOLD DISTRICT

- Kokoseb joins producing QKR's Navachab, B2Gold's Otjikoto, and Shanjin's Twin Hills (DFS) and Ondundu (exploration) projects in a rapidly growing gold district

LONG ESTABLISHED MINING INDUSTRY

- Major revenue earner & employer in Namibia (8% of GDP, 40% of foreign earnings)
- Stable tax code and fair fiscal terms (37.5% tax, 3% royalty, 1% export levy, 15% VAT)
- Current and former in-country mining producers (gold, diamonds, uranium, copper & industrial metals)

Precious Metals	Other
    	    

Wia Gold – Namibia licences

Fast growth licence holder in proven gold jurisdiction

Exploration licences covering
c.3,000km², including 500km² under
application

97,000 metres drilled to date at Kokoseb

Lies within the Pan-African Damara
Orogenic Belt which is largely
underexplored for gold mineralisation

Gold deposits style sediments hosted,
structurally controlled

Transformational Kokoseb gold discovery

Discovered in Q3 2021, with latest MRE from April 2024

Inferred
Mineral
Resource
Estimate

2.12 Moz at 1.0 g/t Au
at 0.5 g/t cut-off¹

- Simple Open pit:
 - Outcropping mineralisation, with max. of 2m cover
 - Average weathering depth of ~30m
- Large, contiguous gold deposits:
 - MRE includes higher-grade 1.53 Moz at 1.4 g/t Au (at 0.8 g/t cut-off) from 47km of drilling
 - Discovery and definition cost of only US\$2.8/oz
- Simple metallurgy:
 - Metallurgical testwork concluded gold recoveries of 92%¹
 - Leach kinetics were rapid with majority of gold leaching in 2 - 4 hours

1. Refer to Appendices and ASX announcement 16 April 2024. WIA confirms that it is not aware of any new information or data that materially affects the information included in those releases. All material assumptions and technical parameters underpinning those releases continues to apply and has not materially changed.

Kokoseb – target MRE uplift and project de-risking

Multi rig scenario focussing on shallow resource conversion and depth exploration of high grade

Rapidly proving extent of scale at Kokoseb – strong and continuous gold mineralisation

-
- US\$1,800/oz Au resource optimised pit shell
- North
- 400m
- towards NW Zone
- 11m @ 1.87 g/t Au
- 42m @ 1.57 g/t Au
- 26m @ 2.06 g/t Au
- 16m @ 1.74 g/t Au
- 28m @ 1.86 g/t Au
- 9m @ 1.42 g/t Au
- 7m @ 4.13 g/t Au
- 19m @ 1.33 g/t Au
- 19m @ 1.23 g/t Au
- 21m @ 1.49 g/t Au
- 8m @ 4.74 g/t Au
- 14m @ 1.91 g/t Au
- 31m @ 1.11 g/t Au
- 20m @ 2.28 g/t Au
- 17m @ 1.58 g/t Au
- KOKOSEB GOLD DEPOSIT
3D view through the Central Zone

Significant high-grade results at Central Zone

Continuous high-grade mineralisation – current focus of drilling

- High-grade area around KRC086 proving continuity with results pending from KDD046 to KDD053 and further drilling underway to strengthen interpretations
- Latest significant intercepts include¹:
 - 19.8m at 2.28 g/t Au, inc. 6.0m at 4.52 g/t Au
 - 21.9m at 4.32 g/t Au, inc. 9.7m at 7.27 g/t Au

1. Refer to ASX announcement 13 January 2025 for latest results

Continuous pit shell along 4.8km strike

Kokoseb – Advancement towards DFS

Initial Scoping Study work bolstered with additional RC and Diamond Rigs

- Increased number of drilling rigs, to three Diamond and three RC Rigs, for exploration & infill drilling
- Delivery of a comprehensive Scoping Study and an updated MRE in Q3 2025
- Commencement of all required planning and engagement of required consultants to advance the Kokoseb Gold Project initially to Scoping Study level in 2025
- Increasing the strength of technical development capabilities on site
- Commencement of geotechnical activities to develop a first phase geotechnical drilling program to inform pit designs
- Further advancement of metallurgy work
- Proposals agreed and signed for initial pit optimisation and project strategy, mining and production schedule, mining cost estimation, pit waste rock dumps and road designs
- Expansion of hydrology and environmental work, including ESIA
- Satellite imagery and topography of site, to do design work on surface water management and consideration for roads, power lines and water lines
- Completion of DFS mid 2026 and targeting mining licence to be awarded by H2 2026

Côte d'Ivoire

Côte d'Ivoire project portfolio

Strategically located blocks

A. Mankono Project

Mankono Quest permit granted, six additional permits under application. Two extensive gold anomalies defined¹

B. Bouaflé Project

Bouaflé Sud and Bouaflé permits granted, plus one additional application. Significant +17km mineralised shear zone in Bouaflé Sud², historically underexplored

D. Issia Project

Issia permit granted. Sub-surface sampling (auger drilling) underway

Location of Wia's Côte d'Ivoire Projects

1. ASX announcements 21 September 2021 and 23 November 2021

2. ASX announcement 17 November 2020

3. ASX announcement 30 August 2021

Strong project generation team having early success

Multiple gold mineralised trends identified at Issia, Bouaflé and Mankono

Significant mineralised zones intersected by RC drilling at the **Bouaflé Project**:

- 4m at 87.43 g/t Au¹
- 10m at 4.54 g/t Au¹
- 6m at 8.51 g/t Au¹
- 16m at 1.56 g/t Au¹
- 6m at 4.31 g/t Au²

7km-long strongly anomalous corridor delineated from soil sampling and confirmed by auger drilling at the **Issia Project**

Summary

2025/2026 Catalysts

Throughout 2025/26 - Drilling results:

- Updated MRE due Q3 2025
- Quarterly Results for infill and exploration campaigns

Mid 2025 - Scoping Study to be submitted, to include:

- Environmental and Social Impact Assessment
- Additional metallurgy work
- Mine scheduling

2025/2026 Permitting:

- Application for Mining Licence after submission of Scoping Study in Q3 2025
- Typical process for Mining Licence is c.12 months post application

Appendices

Rapidly developing gold company in Namibia

June 2019: Entered a JV with Epangelo to acquire Okombahe exploration licence in Namibia

Q3 2021: Significant soil anomaly discovered at Kokoseb

Q2 2022: Maiden DD drilling campaign of 1,750 metres

May 2023: Maiden inferred resource of 1.3m oz @ 1.0gpt

April 2024: MRE inferred resource increase by 63% to 2.12m oz @ 1.0gpt

Q1 2025: Advancing Kokoseb, initially to Scoping level, commenced

Q3 2025: Updated MRE and Scoping Study

Rapid development of Kokoseb – MRE of 2.12m/oz in 3 years, advancing towards DFS

September 2020: Management change A\$7m raised for initial exploration programme

October 2022: Raised A\$6.6m for maiden resource drilling programme

August 2023: Raised A\$11m

May 2024: Raised A\$17m

November 2024: Raised A\$30m

A very large mineralised system

Kokoseb footprint comparable to major Namibian operating gold mines and projects

1 Kokoseb/Wia Gold:
2.12 Moz at 1.0 g/t Au
(at 0.5 g/t cut-off)¹
Wia Gold

2 Otjikoto/B2Gold:
1.4 Moz at 1.5 g/t Au
(at 0.4 g/t cut-off, within a
US\$1,350/oz Au pit shell)²

3 Navachab/QKR:
3.9 Moz Au
(as at 31 December 2013)³

4 Twin Hills/Shanjin (Shandong):
3.1 Moz at 1.1 g/t
(at 0.3 g/t cut-off)⁴

1. ASX announcement 16 April 2024.

2. Refer to NI 43-101 Technical Report – Feasibility Study, dated February 25, 2013, from B2Gold

3. Refer to https://www.sec.gov/Archives/edgar/data/1067428/000120561314000094/aga_sale.pdf (retrieved 29 January 2024)

4. Refer <https://osinoresources.com/projects/twin-hills-discovery/> (retrieved 29 January 2024)

Strategic exploration pipeline

A portfolio of high-quality projects at various stages on the advancement horizon

Straightforward metallurgy and process

- Metallurgical test work completed on two samples composited from RC bulk samples in fresh sulphide material¹
- **Gold recoveries concluded 92%**
- Complete sample leach testing, target grind of P80 75µm followed by gravity recovery and direct cyanidation leaching
- Leach kinetics were rapid with majority of gold leaching in 2 to 4 hours
- Further metallurgical test work to be conducted on core samples on oxide, low-grade, medium-grade and deep fresh material, **with results expected H2 2024**

1. ASX announcement 16 April 2024

KDD012: drill core from 70.5m to 80.5m depth; typical geological settings and mineralisation style; gold grades in g/t. Refer ASX announcement 17 August 2022 for information on drillhole KDD012

Namibian Assets Joint Venture Terms

Joint Venture Parties	Epangelo Mining Company (includes the Kokoseb Gold Discovery) and Kongom Group ¹
Stage 1 and Stage 2 (complete)	WIA earns 80% interest in Epangelo Licences
Stage 3	Minorities free carried to DFS (Epangelo) or Decision to Mine (Kongom)

1. Epangelo is a private mining company incorporated into the Republic of Namibia under the Companies Act (Act 61 of 1972). The Government of the Republic of Namibia is the sole shareholder. The company was declared as a state-owned enterprise in 2013 under the PEGA (Act 2 of 2006)

Existing infrastructure close to Kokoseb

10.24 Power stations, transmission lines and main substations

Kokoseb MRE

Cut off (Au g/t)	Tonnes (Mt)	Au (g/t)	Au (Moz)
0.20	130	0.69	2.88
0.25	115	0.75	2.77
0.30	100	0.80	2.57
0.40	83	0.91	2.43
0.50	66	1.0	2.12
0.60	53	1.2	2.04
0.80	34	1.4	1.53
1.00	23	1.7	1.26

1. Refer to ASX announcement 16 April 2024. WIA confirms that it is not aware of any new information or data that materially affects the information included in those releases. All material assumptions and technical parameters underpinning those releases continues to apply and has not materially changed.
