ASX Announcement
WORLEYPARSONS LIMITED (ASX:WOR)
FY2006 Results Update

At the release of the 2006 first half net profit after tax result the company indicated that:

> "We expect the markets for WorleyParsons' services will continue to be strong. Our key markets and sectors continue to experience positive conditions, in particular hydrocarbons and power.
>
> Based on the strong results achieved so far and subject to reasonable conditions in the markets in which we operate for the remainder of this financial year we would expect to report a modest improvement on the first half's very good result."

Following a review of trading result and subject to a continuation of positive trading conditions across all markets for the remainder of this year it is likely that the 2nd half result will be stronger than previously advised and will be around the top end of analysts' current forecasts which is approximately 20% higher than the 1st half.
