Rio Tinto awards EPCM contract to WorleyParsons

WorleyParsons has been awarded a contract to perform engineering, procurement and construction management (EPCM) services for Rio Tinto's Koodaideri iron ore mine in the Pilbara region of Western Australia.

The award of the EPCM contract follows the completion of the detailed engineering study for the Koodaideri project. The project will be executed over a three-year period from the Perth project office with additional support teams on the mine and rail locations. WorleyParsons will use data centric engineering processes to also produce a digital asset for Rio Tinto.

"We are pleased to expand our relationship with Rio Tinto on this important project", said Andrew Wood, Chief Executive Officer of WorleyParsons.
