ASX RELEASE | 12 April 2023

Winsome appoints new senior staff in Canada as Company expansion continues

HIGHLIGHTS

- Senior appointments made as Winsome Resources continues to expand drilling programs and general operations in Canada.
- Dr Genevieve Morinville appointed VP Sustainability and Regulatory Affairs.
- Mr Antoine Fournier appointed VP Exploration.
- Winsome growing focus on ESG performance and outcomes.

Lithium exploration and development company Winsome Resources (ASX:WR1; "**Winsome**" or "**the Company**") is pleased to announce two senior personnel appointments boosting its in-country capability as operations in Québec continue to expand.

Dr Genevieve Morinville has been appointed VP Sustainability and Regulatory Affairs, bringing close to two decades experience working in the ESG space as both a consultant and manager on Canadian and international projects.

Her role provides a direct conduit for environmental, community, government and Indigenous stakeholders in Canada as the Company places an increasing focus on its ESG performance and outcomes.

Dr Morinville will oversee Winsome's development and implementation of a new sustainability strategy, drive engagement with First Nations communities, oversee regulatory and environmental approvals, as well as manage and maintain environmental management plans. Dr Morinville will formally commence with Winsome on 1 May 2023.

Mr Antoine Fournier has been appointed VP Exploration, bringing a wealth of experience as an exploration geologist who most recently worked as principal geoscientist for SOQUEM, the Québec Government's mineral exploration and development arm of Investissement Québec.

Mr Fournier will manage the Company's growing exploration portfolio with a focus on expanding resource drilling plans as well as identifying new exploration targets within Winsome's existing property portfolio.

These additions to Winsome's senior leadership team will allow Carl Caumartin, who up until now held the dual role of VP Exploration & GM Canada, to transition into the full time GM Canada role, representing Winsome throughout Canada and overseeing management of all in-country operations.

WINSOME'S MANAGING DIRECTOR CHRIS EVANS SAID:

"Winsome Resources has experienced a period of sustained growth and has made these fantastic appointments to help drive our next phase of lithium exploration and pathway to resource development in the James Bay region of Quebec.

"Dr Morinville and Mr Fournier bring clear skill sets to Winsome as we look to maximise the potential and development pathway for our recent Cancet and Adina lithium discoveries, as well as continue regional exploration activity."

"I look forward to working with them and Country Manager Carl Caumartin, who continues to head up the growing team as well as play a tremendous Company ambassador role in Canada."

This announcement is authorised for release by the Board of Winsome Resources Limited.

ABOUT WINSOME RESOURCES

Winsome Resources (ASX: WR1) is a Perth-based, lithium focused exploration and development company with five project areas in Quebec, Canada. Three of Winsome's projects – Cancet, Adina and Sirmac-Clappier are 100% owned by the Company. The Company also has exclusive option agreements to acquire and explore 669 claims totalling 385km^2 in Decelles and a further 259 claims totalling 149km^2 at Mazerac, located near the Quebec mining town of Val-d'Or.

The most advanced of Winsome's projects - Cancet and Adina, provide shallow, high grade lithium deposits and are strategically located close to established infrastructure and supply chains.

In addition to its impressive portfolio of lithium projects in Quebec, Winsome Resources owns 100% of the offtake rights for lithium, caesium and tantalum from Power Metals Corp (TSXV:PWM) Case Lake Project in Eastern Ontario, as well as a 10% equity stake in PWM.

Winsome is led by a highly qualified team with strong experience in lithium exploration and development as well as leading ASX listed companies.
