ASX ANNOUNCEMENT

SIMPEC awarded construction contract by McArthur River Mining

Highlights

- **SIMPEC has been awarded a construction contract for a new Filtration Plant at the Glencore's McArthur River Mine in the Northern Territory.**
- **The project involves delivering processing infrastructure and services at the McArthur River Mine.**
- **The project aligns with SIMPEC's growth strategy to increase its national footprint.**

WestStar Industrial Limited (Company or WestStar) (ASX: WSI), an Australian industrial services company, operating in the energy, resources, utility and infrastructure sectors is pleased to announce the award of a new contract, valued at approximately \$20 million, to its wholly owned subsidiary SIMPEC for the delivery of structural, mechanical, piping (SMP), electrical, and instrumentation (E&I) works at the McArthur River Mine in the Northern Territory.

The project will commence immediately and is scheduled to be completed in Q4 CY2026.

Glencore's McArthur River Mining (the principal) operates the McArthur River Mine (MRM) which is located approximately 900 kilometres southeast of Darwin and approximately 60kms west of the township of Borroloola.

This Scope of Works includes modifications to the existing infrastructure, SMP and E&I Supply and Installation of a new Filtration Plant complete with ancillary items.

SIMPEC Managing Director Mark Dimasi noted:

"Securing this contract at Glencore's McArthur River Mine, marks an important milestone in SIMPEC's continued growth and national expansion. Delivering a project of this scale further demonstrates our capability to execute complex SMPE&I works safely, efficiently, and to the highest standard."

We are pleased to partner with Glencore on this significant development and look forward to contributing to the successful delivery of the new Filtration Plant."

On behalf of SIMPEC, I extend my sincere thanks to the McArthur River Mining Team and welcome the opportunity to work together

Ends
