ASX Announcement

COMMENCEMENT OF DRILLING AT GOLDEN CAMEL PROJECT

Iron Mountain Mining Ltd (ASX: IRM) is pleased to announce that drilling at the Golden Camel Project (MIN5548) in Victoria commenced yesterday afternoon.

The proposed drilling program is 8 diamond core holes for a total of 540m and is comprised of 2 geotechnical holes, 2 metallurgical holes and 4 resource infill holes. At conventional diamond drilling rates, the program is expected to be completed around mid-April.

Recovered core will be sampled following the completion of drilling and results announced as received.
