About X2M Connect Limited

X2M Connect Limited (ASX:X2M) is an Australian technology company that has developed and commercialised a patented proprietary Internet of Things (IoT) solution which delivers productivity improvements, cost savings and improved public safety to enterprise and government clients in the utilities sector.

X2M's technology connects devices such as water, gas and electricity meters and other utility sensors to the internet, enabling data exchange and the remote control of these devices. The Company generates revenue from the sale of hardware and monthly subscription fees under Software as a Service arrangements.

X2M now has more than 180,000 devices connected to its IoT platform and distributed intelligence solution, providing real-time information and control to a steadily increasing customer base operating over multiple radio technologies.

X2M's current focus is on servicing the utility sector in the Asia-Pacific region, where it has a number of government and enterprise customer relationships already in place. Going forward, X2M will look to continue its global expansion, with subsidiaries already operating in Japan, South Korea, Taiwan and, most recently, China.
