What are the risks of investing?

Risk indicator for the Smartshares Global Infrastructure ETF¹

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the fund's assets goes up and down. A higher risk generally means higher potential returns over time, but more ups and downs along the way.

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at sorted.org.nz/tools/investor-profiler.

Note that even the lowest category does not mean a risk-free investment, and there are other risks that are not captured by this rating.

This risk indicator is not a guarantee of a fund's future performance. The risk indicator is based on the returns data for 5 years to 31 March 2024. While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future fund updates.

See the Product Disclosure Statement for the Smartshares Exchange Traded Funds – Specialist Series for more information about the risks associated with investing in this fund.

How has the fund performed?

Past year	
Annual return (after deductions for charges and tax)	Not applicable
Annual return (after deductions for charges but before tax)	Not applicable
Market index annual return (reflects no deduction for charges and tax)	2.06%

The market index annual return is based on the annual return of the FTSE Developed Core Infrastructure 50/50 Index (100% hedged to the New Zealand dollar). Additional information about the market index is available in the 'Other Material Information' document on the offer register at disclose-register.companiesoffice.govt.nz.

What fees are investors charged?

Investors in the Smartshares Global Infrastructure ETF are charged fund charges. Based on the Product Disclosure Statement dated 26 June 2023, these are expected to be:

	% per annum of fund's net asset value
Total fund charges	0.60%
Which are made up of:	
Total management and administration charges	0.60%
Including:	
Manager's basic fee	0.60%
Other management and administration charges	0.00% ²

Investors may also be charged individual action fees for specific actions or decisions (for example, withdrawing from or switching funds). See the Product Disclosure Statement for the Smartshares Exchange Traded Funds – Specialist Series for more information about those fees.

The fees set out above include GST where applicable.

Small differences in fees and charges can have a big impact on your investment over the long term.

Example of how this applies to an investor

Tara had \$10,000 in the fund on 29 June 2023 and did not make any further contributions. On 31 March 2024, Tara received a return after fund charges were deducted but before tax of \$331 (that is 3.31% of Tara's initial \$10,000). This gives Tara a total return after tax of \$199 for the period.

Notes

- 1 Market index returns (as well as actual returns) have been used to complete the risk indicator, as the fund has not been in existence for 5 years. As a result, the risk indicator may provide a less reliable indicator of the potential future volatility of the fund. The risk indicator for the fund uses 4 years and 3 months of market index returns.
- 2 These charges refer to the normal fund operating costs that are charged to the fund. For disclosure purposes, supervisor, audit and legal costs are not included in the manager's basic fee, but are included in the other management and administration charges. Some of these are fixed costs so the amount shown can range from 0% up to the total fund charges depending on the total value of the fund.
- 3 The 'other' category refers to an investment in infrastructure. The underlying investments are infrastructure securities listed in developed countries.
- 4 The top 10 investments listed in the table exclude current assets and current liabilities, and as a result do not sum to 100%.
