About Rakon

Rakon is a global high technology company and a world leader in its field. The company designs and manufactures advanced frequency control and timing solutions. Its three core markets are Telecommunications, Global Positioning and Space & Defence.

Rakon products help set the frequency that all communications transmit and receive on. They also hold time and provide a stable timing reference for electronic equipment around the globe. This enables synchronised time globally, and the efficient and reliable transfer of data at ever-increasing precision and speed. Rakon has six manufacturing plants, including two joint venture plants, and has six research and development centres. Customer support personnel are located in fifteen offices worldwide.

Rakon is proud of its New Zealand heritage; it was founded in Auckland in 1967. It is a public company listed on the New Zealand stock exchange, NZX, ticker code RAK. www.rakon.com
