

Allot Service Gateway Tera Gains Momentum amongst Global Operators

Allot Communications received additional \$5M Order from a Tier-1 Mobile Operator

May 27, 2014 – Hod Hasharon, Israel – [Allot Communications Ltd.](http://www.allot.com) (NASDAQ: ALLT), a leading supplier of service optimization and revenue generation solutions for fixed and mobile broadband operators and cloud providers worldwide, announced today that it received a \$5M order from a Tier-1 mobile operator for the Allot Service Gateway Tera. The Tier-1 operator requires the platform's service enablement capabilities to introduce a large-scale subscriber offering later in the year. This is the 5th order for the Allot Service Gateway Tera from Tier-1 customers since the beginning of the year.

The Allot Service Gateway Tera uniquely combines a high-performance DPI-based platform with a unified framework to deliver Value-Added Services on the Operator's network. Operators can use this platform to efficiently deliver a range of value-based services to millions of subscribers in high-speed networks.

"With the growing demand for digital lifestyle services amongst customers, service providers need a high-powered platform, which allows them to rollout new large-scale service offerings quickly" said **Yaniv Sulkes**, AVP of Marketing at Allot Communications.

Built to manage over 15 million active subscribers, the Allot Service Gateway Tera provides service providers with access to real-time traffic management, video optimization, policy enforcement, application-based charging, security services, value-added services and network analytics - allowing operators to expand connectivity and adapt to changing market needs.

###

About Allot Communications

Allot Communications Ltd. (NASDAQ, TASE: ALLT) is a leading global provider of intelligent broadband solutions that put mobile, fixed and enterprise networks at the center of the digital lifestyle and workstyle. Allot's DPI-based solutions identify and leverage the business intelligence in data networks, empowering operators to analyze, protect, improve and enrich the digital lifestyle services they deliver.
