

Allot Communications Receives \$8M Expansion Order from a Tier-1 Operator

Protecting against large scale DDoS attacks nationwide

September 21, 2015 – Hod Hasharon, Israel – [Allot Communications Ltd.](#) (NASDAQ, TASE: ALLT), a leading global provider of intelligent broadband solutions that empower communication service providers to optimize and monetize their networks, enterprises to enhance productivity and consumers to improve their digital lifestyle, announced today that it has received an expansion order of approximately \$8 million from a major APAC tier-1 fixed-line operator for [Allot Service Gateway Tera](#), [Allot Service Protector](#) and [Allot Websafe](#).

This incumbent operator is using Allot's Service Protector in-line solution to protect national critical infrastructure, business communication, and IT infrastructure nationwide against destructive DDoS attacks. This is an expansion order to an existing project, which augments the solution's scale, providing rapid identification and in-line mitigation of large scale attacks. The solution manages and secures traffic of up to two Terabits per second without the need to redirect traffic to a scrubbing center. The operator's complex and high capacity network requires effective protection at a vast scale, which is achieved by Service Gateway Tera and its integrated security services.

"This new order is another testament of Allot solutions' scalability and effectiveness in enabling the operations of large Tier-1 operators" said Gary Drutin, Chief Customer Officer, Allot Communications. "Allot is playing a critical role in helping the operator improve and protect service delivery as it scales to meet growing demand".

Allot Service Gateway Tera is a high-performance platform that provides a unified framework for traffic detection, policy enforcement and service integration across fixed and mobile networks. The solution enables operators to manage the heaviest traffic loads and a growing subscriber base and ensure the network keeps pace with increased demand for data as well as the complex needs of service delivery.

###

About Allot Communications

Allot Communications Ltd. (NASDAQ, TASE: ALLT) empowers service providers to monetize and optimize their networks, enterprises to enhance productivity and consumers to enjoy an always-on digital lifestyle. Allot's advanced DPI-based broadband solutions identify and leverage network intelligence to analyze, protect, improve and enrich mobile, fixed and cloud service delivery and user experience.
