

Tier-1 Mobile Operator in APAC Selects Allot to Protect their 5G Network from Attacks

Existing Allot customer to deploy Allot 5G NetProtect solution to defend the network from DDoS and botnet attacks.

HOD HASHARON, Israel, June 9, 2021 -- [Allot Ltd.](#) (NASDAQ: ALLT) (TASE: ALLT), a leading global provider of innovative network intelligence and security-as-a-service (SECaaS) solutions for communication service providers (CSPs) and enterprises, today announced that a Tier-1 mobile operator in APAC has selected the Allot 5G NetProtect solution to provide end-to-end User Plane Protection (UPP) against DDoS and botnet attacks on their 5G network.

[Allot 5G NetProtect](#) secures the 5G user plane from DDoS and bot attacks. It is a cloud native solution designed to meet requirements derived from 5G network scale, latency, and expanded threat landscape. Allot 5G NetProtect employs a multi-layer threat prevention strategy that detects and blocks the latest and most evasive DDoS and botnet attacks the are initiated from within and from outside the network, assuring network Quality of Experience (QoE). It uses machine learning artificial intelligence to automatically detect and block zero-day attacks and is built upon an industry-leading inline network intelligence engine with field-proven, ultra-low latency, 5G-scale performance.

“We are very proud that this mobile operator has put their trust in Allot to protect their 5G network from both external and internal attacks. We expect that as 5G networks are deployed and grow, the need for securing the network itself will become a growth opportunity for Allot,” said Oren Coral, Vice President of Sales, APAC for Allot.”

About Allot

Allot Ltd. (NASDAQ: ALLT, TASE: ALLT) is a provider of leading innovative network intelligence and security solutions for service providers and enterprises worldwide, enhancing value to their customers. Our solutions are deployed globally for network and application analytics, traffic control and shaping, network-based security services, and more. Allot's multi-service platforms are deployed by over 500 mobile, fixed and cloud service providers and over 1000 enterprises. Our industry-leading network-based security as a service solution has achieved over 50% penetration with some service providers and is already used by over 20 million subscribers globally.

Allot. See. Control. Secure.

Forward-Looking Statement

This release contains forward-looking statements, which express the current beliefs and expectations of company management. Such statements involve a number of known and unknown risks and uncertainties that could cause our future results, performance or achievements to differ significantly from the results, performance or achievements expressed or implied by such forward-looking statements. Important factors that could cause or contribute to such differences include risks relating to: acceptance of our products by our reseller and customer in EMEA, our ability to compete successfully with other companies offering competing technologies; the loss of one or more significant customers; consolidation of, and strategic alliances by, our competitors, government regulation; lower demand for key value-added services; our ability to keep pace with advances in technology and to add new features and value-added services; managing lengthy sales cycles; operational risks associated with large projects; our dependence on third-party channel partners for a material portion of our revenues; and other factors discussed under the heading "Risk Factors" in the Company's annual report on Form 20-F filed with the Securities and Exchange Commission. Forward-looking statements in this release are made pursuant to the safe harbor provisions contained in the Private Securities Litigation Reform Act of 1995. These forward-looking statements are made only as of the date hereof, and the Company undertakes no obligation to update or revise the forward-looking statements, whether as a result of new information, future events or otherwise.
