**Explanations:**

1. If the change affects more than one security, the effect must be separately detailed for each security.
2. Change date – all similar changes, in the same security, made on one day, will be summarized in one row. For this purpose, a distinction should be made between changes executed via the stock exchange clearing house and those made directly in the company books.
3. Change – for reductions, add the "-" sign.
4. All quantity fields must be for the number of securities, not in NIS par value.
