Explanations:

1. It is also required to report holdings of other securities, including those not listed for trading.
2. If the interested party holds more than one type of security in the corporation, the holding percentage (including full dilution) should be stated considering all securities held by them in a single row.
3. This form should detail the holdings of all interested parties, including those whose holdings have not changed.
4. If the interested party is a controlled company with significant activity for the corporation, the holdings should be split between shares acquired before the Companies Law, 1999 came into effect (granting rights in equity and voting) and shares acquired after (which are dormant shares).
5. If the interested party is a corporation, also state the first name(s) of the ultimate controlling shareholder(s) of this corporation. If there is no controlling shareholder, provide details of the interested parties in it.
6. If a senior officer holds five percent or more of the issued share capital of the corporation or its voting power, their holdings should be detailed in the "Interested Parties" table as detailed in section A above.
7. If the interested party or senior officer also holds securities in a controlled company whose activities are significant to the corporation, details of these holdings should be provided in the "Comments" field in the holder's details section.
