DOTVOX Selects AudioCodes for Hosted Communications Service

AudioCodes high-definition IP phones and analog telephony adaptors to be deployed by Trapp Technology's DOTVOX at its hosted unified communications customers' premises

Lod, Israel - October 10, 2017 - AudioCodes (NASDAQ: AUDC) Press Release

Highlights

- Trapp Technology's DOTVOX offers hosted unified communications services to organizations of all sizes, budgets and industries, all based on BroadSoft Business
- AudioCodes [400HD series IP phones](#) and [MediaPack analog telephony adaptors](#) are validated by BroadSoft
- DOTVOX selected AudioCodes' 400HD series as high-quality, easy-to-use business IP phones that cover all customer needs
- AudioCodes MediaPack analog telephony adaptors enable seamless connectivity of customers' legacy PBXs, phones and faxes with DOTVOX's core infrastructure

Details

AudioCodes, a leading provider of voice networking solutions that enable enterprises and service providers to transition to all-IP voice networks, today announced that DOTVOX, a premier hosted unified communications (UC) provider based in Phoenix, AZ, has selected AudioCodes' IP phones and analog telephony adaptors to be deployed at its business customers' premises. By selecting AudioCodes as its supplier of customer premises voice equipment, DOTVOX enables its customers to enjoy seamless connectivity with its VoIP services regardless of their size, industry or budgetary requirements.

AudioCodes 400HD series consists of a range of high definition IP phones that offer high voice quality coupled with user-friendly, ergonomic design and full interoperability with DOTVOX's service infrastructure, which is based on BroadSoft Business hosted UC platforms. The 400HD series ranges from simple entry-level devices up to high-end executive phones,

giving DOTVOX's customers the ability to select the desktop devices that best meet the needs of their employees in a cost-effective manner.

AudioCodes MediaPack 20x series analog telephony adaptors (ATAs) enable DOTVOX's customers to hook up legacy telephony equipment (such as PBXs, phones and faxes) to the hosted UC service simply and reliably. AudioCodes ATAs are also certified by BroadSoft helping to ensure that the transition of DOTVOX's customers to VoIP can be achieved smoothly and without the need for rip-and-replace upgrades.

"We could not be happier with the strengthening relationship between DOTVOX and AudioCodes," said Jay Bouche, Director of Marketing at DOTVOX. "In today's competitive market, it's essential that we provide the best equipment possible at the lowest price for our customers, and AudioCodes enables us to do that again and again."

"We are delighted that our products have been selected by DOTVOX," said Lior Aldema, COO and Head of Global Sales at AudioCodes. "With their certified BroadSoft interoperability, high voice quality and ease-of-use, our IP phones and ATAs enable DOTVOX to offer simple, reliable and cost-effective VoIP connectivity to its business customers, as they embark on their transition to fully IP-based communications."

AudioCodes will be exhibiting at BroadSoft Connections in Phoenix, Arizona, October 22-24, 2017. Click [here](#) to request a meeting with our experts at the show.
