 - [Centralized device and network management](#) with real-time voice quality monitoring

Details

AudioCodes (**NASDAQ: AUDC**), a leading vendor of advanced voice networking and media processing solutions for the digital workplace, today announced that its [One Voice portfolio](#) of products and solution has been selected by [Sunrise Communications](#), a leading service provider and system integrator in Switzerland. Sunrise, an AudioCodes platinum status channel partner, is deploying AudioCodes' solutions to deliver robust and cost-effective voice infrastructure for business customers using Microsoft Skype for Business unified communications.

Sunrise offers its customers Microsoft unified communications both as an on-premises and a cloud-based solution (in conjunction with Skype for Business Online). Fully aligned with Microsoft's current and future voice strategies, AudioCodes solutions are suitable for both scenarios.

The AudioCodes products deployed by Sunrise include:

- High definition, Microsoft-certified [IP phones](#)
- [Mediant session border controllers \(SBCs\) and media gateways](#) for seamless voice connectivity with legacy on-premises PBXs and IP-PBXs, the PSTN and SIP trunks
- [Mediant CCE Appliance](#) delivering on-premises voice connectivity for Skype for Business Online customers
- [Centralized device and network management](#) with real-time voice quality monitoring

"The rapid rise in popularity of unified communications services, in general, and Skype for Business, in particular, in Switzerland meant that we needed a reliable, experienced partner to supply essential voice infrastructure elements," commented Robert Wigger, Chief Business Officer at Sunrise. "AudioCodes represented the perfect answer to our needs with a broad, field-proven portfolio of products and solutions capable of handling virtually any customer deployment, whether on-premises or cloud-based."

"We are delighted to have been selected by Sunrise to provide voice infrastructure elements for its customers' Skype for Business solutions," said Nimrod Borovsky, VP global marketing at AudioCodes. "Our One Voice offering is designed to ensure smooth and rapid deployments of voice services for Microsoft Skype for Business UC environments and will continue to do so as Skype for Business transitions to Microsoft Teams."
