Details

AudioCodes (**NASDAQ: AUDC**), a leading vendor of advanced voice networking and media processing solutions for the digital workplace, today announced that [Fuze](#), the leading cloud-based communications platform provider, has selected AudioCodes products and solutions for deployment at its customers' locations. AudioCodes [Mediant hybrid session border controllers](#) (SBCs) and [MediaPack analog gateways](#) provide essential voice connectivity with the PSTN and legacy voice equipment which has enabled Fuze to expand its offering to markets with unique connectivity requirements for customers with large geographic footprints.

In recognition of its contribution to Fuze's global expansion, AudioCodes received the Fuze Voice Innovation Technology Partner 2017 award at the Enterprise Connect 2018 event in Orlando, FL.

“AudioCodes’ stable and field-proven products deliver high performance and reliability, ensuring a high-definition end user experience for our customers,” commented Michael Affronti, VP of Product, Fuze. “The flexibility and high quality of the MediaPack and Mediant products have been crucial in enabling our multinational customers to connect to our enterprise communications platform wherever they are located.”

“We are delighted to have been selected by Fuze for its global cloud-based UC service,” said Lior Aldema, Chief Business Officer at AudioCodes. “Fuze’s unique offering for multinational enterprises coupled with our field-proven and scalable voice connectivity solutions ensure rapid and cost-effective deployments that meet any customer requirements.”

Visit AudioCodes at Enterprise Connect 2018 in Orlando, FL, March 12-14, 2018, Booth #707, to meet our team and experience our broad range of innovative voice products and solutions at first hand.
