AudioCodes Expands Its Voice Solution Portfolio for Webex Calling

AudioCodes now offers an end-to-end portfolio of certified voice solutions for Webex Calling, from Cloud Connect PSTN connectivity to analog gateways and desk phones

Or Yehuda, Israel – February 2, 2026

Highlights

- AudioCodes has expanded its offering of certified solutions for Webex Calling beyond Cloud Connect voice connectivity and SBC solutions with a range of certified IP phones and analog gateways.
- Three AudioCodes 400HD IP phone models (C450HD, 445HD, 425HD) are now certified for Webex Calling.
- The secure and robust phones deliver enhanced productivity and collaboration with high-resolution screens, programmable keys and centralized management.
- AudioCodes IP phones are also certified for other leading unified communications platforms.
- AudioCodes analog gateways enable legacy analog devices such as desk phones, fax machines and alarm systems to connect seamlessly to Webex Calling.

Details

AudioCodes (NASDAQ: AUDC), a global leader in enterprise voice and VoiceAI business solutions, today announced that it has expanded its certified portfolio of voice solutions for Webex Calling, Cisco's cloud-based unified communications platform. In addition to PSTN connectivity via Cloud Connect, AudioCodes has now certified three models from its 400HD business IP phone series for [Webex Calling](#), as well as a range of MediaPack analog gateways. AudioCodes' portfolio of [certified voice solutions for Webex Calling](#) already includes Certified Calling Partner for Cloud Connect voice connectivity for the USA, Canada and countries in EMEA and Latin America, Cloud Connect Enablement Provider and Certified Mobile Calling Provider. In addition, AudioCodes SBCs are certified as 3rd Party Gateways for Premises PSTN connectivity for Webex Calling, previously known as Local Gateway.

AudioCodes' certified IP phone models deliver a high-quality, familiar calling experience for a wide variety of Webex Calling user personas and use cases. Designed with security and ease of use in mind, these robust phones feature high-resolution screens, large physical programmable keys and optional sidecars for enhanced productivity. The

phones are fully manageable via AudioCodes Device Manager and the Webex Control Hub, enabling centralized provisioning, monitoring and updates to streamline IT operations.

The AudioCodes IP phones models certified for Webex Calling are:

- [C450HD](#): An executive, feature-rich business phone with a large 5" color touch screen, integrated Wi-Fi and support for [an optional touch-screen expansion module](#). The C450HD is ideal for executives and power users seeking advanced connectivity and a premium user experience.
- [445HD](#): A high-end business phone with a 4.3" high-resolution color screen and an integrated LCD sidecar for speed dial contacts and presence monitoring. The 445HD boasts 6 programmable multi-function keys and 12 programmable speed dial keys.
- [425HD](#): An advanced, mid-range business IP phone for office workers and common areas. Featuring a 3.5" color display, 8 programmable multi-function keys and HD voice quality, the 425HD is designed for simplicity and intuitive operation.

AudioCodes MediaPack analog gateways enable legacy analog devices such as desk phones, fax machines and alarm systems to connect seamlessly to Webex Calling. The MediaPack [MP-1xx](#), [MP-2xx](#) and [MP-5xx](#) families include a scalable range of devices with different port densities, making it easier for customers to migrate to Webex Calling at their own pace.

AudioCodes complements its offering for Webex Calling with a full suite of professional services and 24/7 global support, helping partners and end customers to achieve successful and timely implementations.

"The recent certification of our devices for Webex Calling is a testament to AudioCodes' commitment to delivering best-in-class voice solutions for unified communications," said Nati Davidi, Devices Business Line Manager at AudioCodes. "Our devices are designed to accelerate the adoption of Webex Calling by offering users an intuitive, reliable and feature-rich experience. They also assist partners and service providers to simplify the delivery of end-to-end, certified voice enablement solutions for Webex Calling environments."
