**To: The Tel Aviv Stock Exchange
 The Israeli Securities Authority**

Immediate Report: Approval of Temporary Activation - Fourth Generation

The Company received a notice from its subsidiary, Pelephone Communications Ltd. (“Pelephone”), stating that it had received activation approval today from the Ministry of Communications, permitting it to supply fourth generation services with LTE technology, through a temporary allocation of an 1800 frequency band with a width of 5 MHz, similar to competitors.

Pelephone will activate the service immediately and in a gradual manner in the same areas in which an LTE infrastructure exists, in order to enable hundreds of thousands of the suitable and active devices on the Pelephone network to benefit from advanced data services in the same areas. The continued deployment of the network is in progress.
