99.1	<u>Update regarding the Control Permit Threshold.</u>

**Re: Update regarding the Control Permit Threshold**

Ramat Gan, Israel – **February 27, 2019** – B Communications Ltd. (the “**Company**”) (NASDAQ Global Select Market and TASE: BCOM).

Further to a previous report on February 4, 2019, the Company now reports that pursuant to its request, it received approval from the Israeli Ministry of Communications to change the definition of an “Israeli Party,” as defined in the Ministry’s Telecommunications Order (Telecommunications and Broadcasts) (Determination of Essential Service Provided by Bezeq The Israel Telecommunication Corp. Ltd.), 1997 (the “**Communications Order**.”)

The Ministry (or the Minister of Communications and Minister of Defense) has previously determined that Internet Gold and the Company are deemed to be “Israeli Parties,” so long as Internet Gold and the Company are controlled by a citizen and resident of Israel and that the ownership interest of the controlling shareholders in Internet Gold and our Company does not fall below 50% at any time.

As previously reported on February 4, 2019, the new definition now allows that the holdings of the controlling shareholders of Internet Gold do not fall below 35% of Internet Gold’s equity, and according to an additional approval dated February 26, 2019, the holdings of Internet Gold in our Company shall also not fall below 35%, a lower ownership interest minimum than the previous 50% level.

The Ministry’s approval is subject to the Company prohibiting a “Joint Appointment” (unless preapproved in writing by the Ministry) as defined in the Communications Order and that the Company’s Articles have no provision that impedes Internet Gold’s obligation to control the Company (in the level required in the Communication Order).

Ami Barlev, CEO of the Company said: "We welcome the approval of the Ministry of Communications which reinforces the financial flexibility of the company and provides us with an additional range of financing possibilities. The decision of the Ministry of Communications is in the best interest of the public and our shareholders. The core asset of B Communications, the Bezeq Group, is solid and we will be examining all our currently available alternatives."
