Dear Sir/Madam,

Subject: **Notice Pertaining the Receipt of Acceptance of a Patent Approval for a  
Method of Extracting Nectar**

Following the Company's notice of April 10, 2022 (reference No.: 2022-01-045781) and the stated in Section 20.2 in Chapter A (Description of the Corporation's Business) in the Company's Periodic Report for 2023<sup>1</sup> regarding entry into the national stage for a patent application titled Nectar Harvesting Systems and Methods, the Company is honored to notify that on August 30, 2023, Bee-io Honey Technologies Ltd., a private company wholly owned by the Company (hereinafter: the "**Subsidiary**"), announced that it had received an Allowance notice to pay a fee for the approval of the Subsidiary's patent.

This is the Subsidiary's first patent that will be approved in the US. This approval is a significant milestone in strengthening the Subsidiary's intellectual property that will contribute to its international activities. This approval together with another patent application that is under examination at the national stage in the US, as well as 5 additional patent applications that have been submitted (3 applications at the PCT stage and 2

<sup>1</sup>The Company's Periodic Report for 2022 as published on March 16, 2023 (2023-01-028020).

applications at the provisional stage), are part of the Company's long-term strategic plan to generate a significant advantage in its field of activity by protecting its intellectual property.

**It is clarified that the information detailed in this above notice, including the Company's estimates and forecasts, is considered as a "Forseeing" information as defined in the Securities Law, 1968, and the regulations thereunder, based on the information known to the Company at that time, as well as on estimates and forecasts that the realization of which depends, among other things, on factors that are not under the control of the Company as stated in this report above. It should be noted that the Company is a Research and Development Company, and as such, the estimates and forecasts may materialize differently from the Company's intentions and/or not take place at all, including due to the possibility that the results of the studies and the Company's estimates regarding the results of the studies will change and/or be delayed and/or not take place at all, since the studies of the Company are preliminary and precedential and are based on a limited sample at this stage.**

**Sincerely,  
Bee-io  
Honey Ltd.**
