Explanations:

1. If the change affects more than one security, the effect on each should be detailed in a separate row.
2. Date of change – all changes of the same kind, to the same security, performed on the same day, should be summarized in one row. For this – separate changes executed via the stock exchange clearing system from changes executed directly in the company’s books.
3. Indicate a minus sign (“-”) for a decrease.
4. For all quantity fields, report the quantity of securities and not NIS (par value).
