**Explanations:**

1. If the change affects more than one security, specify the effect for each security in a separate row.
2. Change date – all changes of the same type, in the same security, conducted on the same day, should be aggregated in one line. For this matter – distinguish between changes made via the exchange clearinghouse and those made directly in the company's books.
3. For a decrease, add the sign "-".
4. In all quantity fields, the amount of securities should be entered, not NIS par value.
