"We are extremely pleased with the overall trends in our business, and are working to continue the strong momentum achieved late in 2020 and during the first quarter throughout the year," stated Christopher von Jako, Ph.D., President and Chief Executive Officer of BrainsWay. "Our revenues of \$6.1 million represented a significant 47% increase over our first quarter of 2020, demonstrating the resiliency of our business and continued emergence from the COVID-19 pandemic. We marked a true milestone for our revolutionary approach to mental health treatment with the recent treatment of our 100,000th patient, and this was complimented by impressive commercial and regulatory achievements, including our successful follow-on raise of \$45.2 million in gross proceeds, the controlled market release of our smoking addiction system, and the FDA's clearance of our three-minute Theta Burst depression protocol. We believe these accomplishments position us well to generate long-term shareholder value and to advance in our mission to improve health and transform lives."
