### Explanations:

1. If the change affects more than one security, the effect of the change should be detailed in a separate row for each security.
2. Date of change – all changes of the same type, in the same security, performed on the same day, will be summarized in one row. For this purpose – changes performed through the TASE clearing house should be separated from changes performed directly in the company's books.
3. For a decrease, add the sign "-".
4. All quantity fields must be filled with the number of securities and not NIS par value.
