

CELLCOM ISRAEL ANNOUNCES CURRET STATUS RE GOLAN TELECOM

Netanya, Israel – November 27, 2016 – Cellcom Israel Ltd. (NYSE: CEL) (TASE: CEL) (the "Company") announces that the Company provides this report at the request of its controlling shareholder, IDB Development Corporation Ltd., or IDB, in connection with certain debt issuance contemplated by IDB.

Following previous reports, the Company is in advanced stages of negotiations for a possible network sharing agreement (which will also resolve past national roaming payment differences with Golan Telecom Ltd., or Golan) with a third party interested in purchasing Golan Telecom Ltd., or Golan. Such negotiations maturing into an agreement is further dependent on such third party and Golan reaching an agreement as to the purchase of Golan as well as Golan and the Company reaching certain agreements as to the parties' existing Share Purchase Agreement, or SPA and National Roaming Agreement, which may also include interim arrangements. Any such Company's agreements will be subject to the completion of negotiations to the Company's satisfaction, the approval of the Company's board of directors, the acquisition of Golan by such third party and the receipt of all regulatory approvals for the purchase and network sharing agreements. The Company cannot estimate the timing and results of any of the abovementioned negotiations, whether and when such negotiations shall mature into agreements and whether such agreements shall be approved by the regulators.

Further, following previous reports regarding Golan's failure to pay the Company all due amounts for national roaming services and asking the court to declare it does not owe the Company the previously reported past national roaming payment differences, Golan rejected the Company's demand it pays the NIS 600 million on December 3, 2016, according to the SPA. In case such failures are not resolved shortly to the Company's satisfaction, the Company will continue the legal proceedings already commenced against Golan and may take additional measures, including filing a liquidation request against Golan. The Company cannot estimate the timing of such legal proceedings, what the decision in such proceedings will be, or their impact on the Company's ability to collect amounts owed by Golan or to generate future revenues from Golan. As previously reported, a substantial reduction of the future revenues from Golan will have a material adverse effect on the Company's revenues and results of operations.

For additional details see the Company's 2015 Annual Report under "Item 3 Key Information - D. Risk Factors– Risks Related to our Business –We face intense competition in all aspects of our business" and "- Risks Related to the Proposed Acquisition of Golan Telecom Ltd." and under "Item 4. Information on the Company – B.
