

### **Other limitations**

This presentation contains only partial information regarding the Company's results for 2023 and was prepared for summary and convenience purposes only. The presentation cannot be in lieu of reviewing the reports published by the Company for the public (including its financial statements), which include the complete information about the Company, before making a decision to invest in the Company's securities. In the event of any discrepancy between that stated in the presentation and that stated in the Company's official reports, that stated in the said reports will prevail.

Any forward-looking forecast and/or statement (as forward-looking information is defined in the Israel Securities Law, 1968) provided, if any, by way of this presentation, is based on the Company management's assessment according to its discretion, and involves uncertainty, including factors that are beyond the Company's control, each of which or a combination of them, as well as materialization of any of the risk factors typical of the Company's operations, may lead to the said forecasts and/or assessments not being realized or being realized materially differently than expected.

This presentation does not constitute an offer to acquire securities of the Company, or an invitation to receive such offers, and is intended for the provision of information only, as part of providing explanations about the Company.

### Introduction

The Iron Swords War broke out on October 7th, when Israel was the target of a murderous terrorist attack.

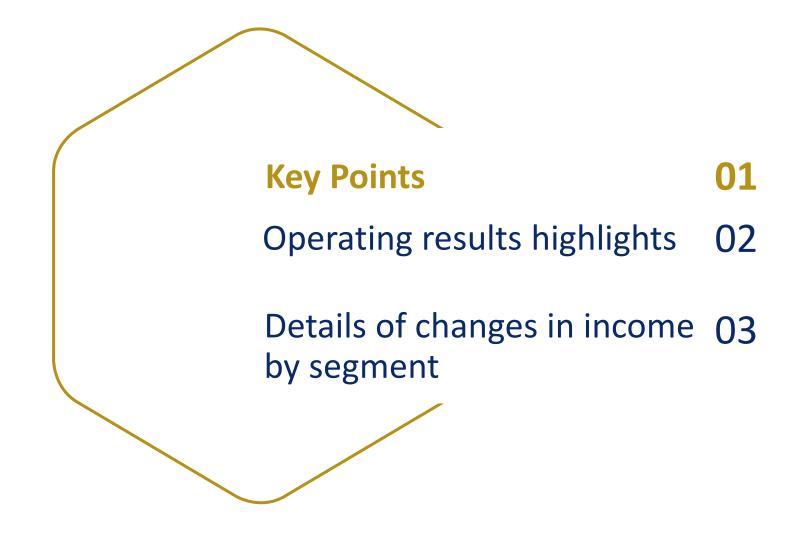

For six months now Israel has been facing the very complex and painful reality of war. We have Israeli hostages that have been held in Gaza for 173 days, soldiers in the south and in the north, and tens of thousands of residents who are cut off from their homes and the normality of life as was known to them through October 6th.

History taught us that protracted wars have adverse effects on the economy, which sometimes last several years. 2024 is expected to be a complex year. In those defining moments, institutional entities play an enormously crucial role in reinforcing the economic resilience, which also has a direct effect on the State of Israel's national resilience.

At this time, our hearts go out to the hostages, their families and the IDF soldiers, and we pray that they will return quickly to their families. Our condolences to the families of IDF soldiers, who were killed in the line of duty, and the families of the civilians, who were murdered; we pray for a quick recovery for the injured.

We all hope for better days soon - for a life of security, peace and joy.

### 2023 as a key year in implementing the Group's strategy

In 2023, the Group transitioned from a legacy insurance company with a significant bias towards traditional long-term savings and long-term care products, to a financial holding group with diversified sources of income and profit.

Under this strategy, the Group completed the acquisition of credit card company MAX.

This acquisition is expected to add an important foundation to the Group's profitability while diversifying the sources of income. The credit card activity is becoming an increasingly significant foundation for Clal Holdings, alongside the insurance activity.

In 2023, MAX earned approx. NIS 246 million (net of one-off selling expenses), with a return on its equity of approx. 14%. MAX was consolidated as from Q2 and - due to accounting effects, some of which are one-off as of the acquisition date - this profitability has yet to be significantly reflected in the financial statements of 2023.

To be fully reflected, net of one-off effects, in 2024.

### **Key trends**

**Better income diversification and profitability from a variety of activities** while reducing dependence on past loss-making activities

Improvement of underwriting income across the insurance subsegments

**Comprehensive income of approx. NIS 102 million in Q4**, net of the direct effects of the Iron Swords War and provision for retirement plan, income amounted to approx. NIS 170 million

**Excess capital of approx. NIS 0.9 billion in Clal Insurance**, which translates into a solvency ratio of 109%, very close to the dividend distribution threshold (as of June 2023)

**Leadership in capital management and own-funds (nostro) investments**; First place in nostro returns in the past two years compared to the competitors\*

<sup>\*</sup> Compared to the five major insurance companies; net of revalued own-use real estate properties

### **Operating Segments**

comprises five subsegments: Liability - compulsory motor and other liability (which mainly includes third-party liability insurance products); property - motor property, credit insurance and other property (including remaining property subsegments other than motor and liability as well as other insurance subsegments, such as guarantees)

#### **Health insurance**

comprises the Group's activity in the health insurance subsegments. The segment includes LTC (individual and collective) and Illnesses and hospitalization (which includes medical expenses, surgeries and transplants, personal accidents and travel)

#### **Long-term savings**

includes the Group's activity in the life insurance, pension funds and provident funds subsegments. The segment includes long-term savings as well as insurance coverage of various risks such as death and disability insurance

#### **Credit cards**

includes credit cards operating results, divided into two main areas of activity: issuance and acquiring

#### Other

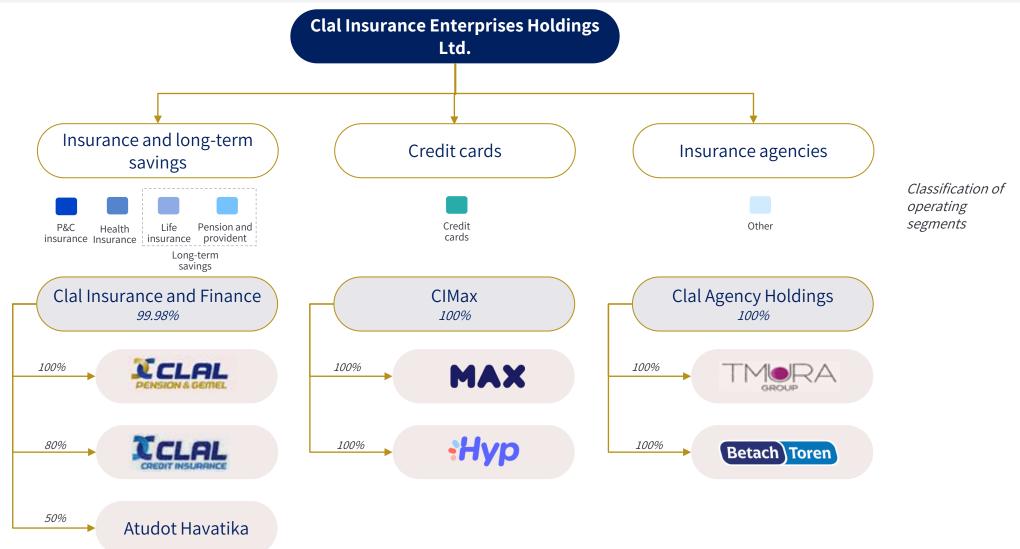

Mostly includes own agencies, and investment in Michlol

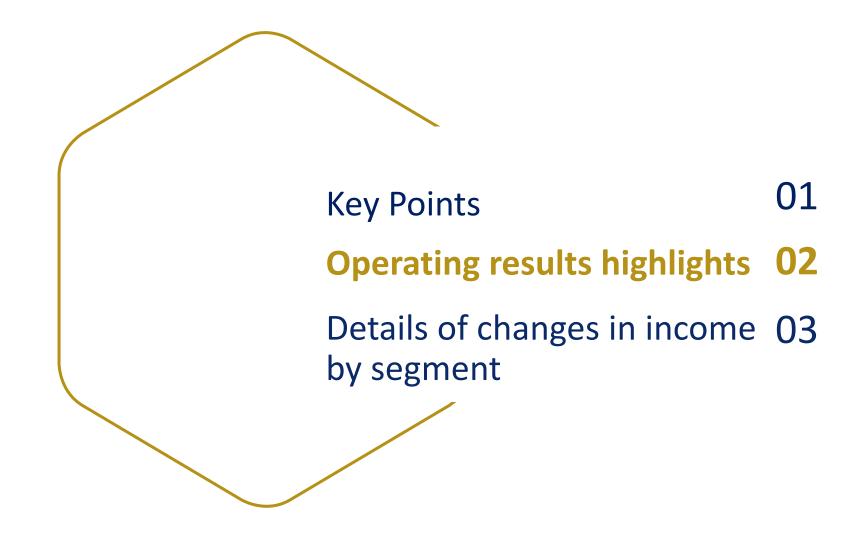

#### **Activity that is not assigned to segments**

consists of the Group's headquarters, which mainly consists of capital, liabilities (including finance expenses for MAX's acquisition) and assets outside the insurance or credit card businesses, and amortization of MAX's excess cost

### **Structure of main holdings**

Diversified activity in the fields of insurance and long-term savings, credit cards and insurance agencies

### **Group Results in 2023 - Highlights**
