## Creative Media & Community Trust Corporation Reports 2023 Third Quarter Results

Dallas—(November 14, 2023) Creative Media & Community Trust Corporation (NASDAQ and TASE: CMCT) (“we”, “our”, “CMCT”, or the “Company”), today reported operating results for the three and nine months ended September 30, 2023.

### Third Quarter 2023 Highlights

#### *Real Estate Portfolio*

- Same-store office portfolio<sup>(2)</sup> was 83.9% leased.
- Executed 29,291 square feet of leases with terms longer than 12 months.

#### *Financial Results*

- Net loss attributable to common stockholders of \$22.9 million, or \$1.01 per diluted share.
- Funds from operations (“FFO”) attributable to common stockholders<sup>(3)</sup> was \$(7.5) million, or \$(0.33) per diluted share.
- Core FFO attributable to common stockholders<sup>(4)</sup> was \$(7.1) million, or \$(0.31) per diluted share.

### Management Commentary

“We made additional strides improving multifamily occupancy,” said David Thompson, Chief Executive Officer of Creative Media & Community Trust Corporation. Two of the three assets that we acquired this year are still in their lease-up phase following completion of construction. We believe the continued lease-up of these two assets will lead to improving funds from operations.”

“We made significant additional progress in our value-add and development pipeline in the third quarter,” said Shaul Kuba, Chief Investment Officer of Creative Media & Community Trust Corporation.

“In Culver City, we were very pleased to have just received entitlements to redevelop our existing single story office building on Washington Boulevard into a multi-story creative office building. This asset is located in a supply constrained, highly desirable sub market and is surrounded by top tier technology companies. We are now proceeding towards design and permitting of the building.”

### Third Quarter 2023 Results

#### Real Estate Portfolio

As of September 30, 2023, our real estate portfolio consisted of 26 assets, all of which were fee-simple properties, including two office properties (one of which is being partially converted into multifamily units and one of which also includes a multifamily development site) and one multifamily property which the Company has an ownership interest in through investments in unconsolidated joint ventures. The portfolio included 13 office properties totaling approximately 1.3 million of rentable square feet, three multifamily properties with a total of 696 units, eight development sites (two being used as parking lots), and one 503-room hotel with an ancillary parking garage.

#### Financial Results

Net loss attributable to common stockholders was \$22.9 million, or \$1.01 per diluted share of common stock, for the three months ended September 30, 2023, compared to a net loss attributable to common stockholders of \$11.7 million, or \$0.50 per diluted share of common stock, for the same period in 2022. The increase in net loss attributable to common stockholders was driven by the \$885,000 decrease in FFO discussed below as well as an increase in depreciation and amortization expense of \$11.0 million.

FFO attributable to common stockholders<sup>(3)</sup> was \$(7.5) million, or \$(0.33) per diluted share of common stock, for the three months ended September 30, 2023, a decrease of \$885,000 compared to \$(6.6) million, or \$(0.28) per diluted share of common stock, for the same period in 2022. The decrease in FFO was primarily attributable to an increase in interest expense not allocated to our operating segments of \$6.5 million, an increase in provision for income taxes of \$367,000, an increase in general and administrative expenses of \$250,000 and an increase in redeemable preferred stock dividends of \$225,000. These were partially offset by a decrease in the consolidated statement of operations impact of redeemable preferred stock redemptions of \$4.5 million, an increase of \$1.1 million in segment net operating income (discussed in more detail in the following Segment Information), an increase in net loss attributable to

noncontrolling interests, adjusted for their share of depreciation and amortization expense, of \$253,000, an increase of \$219,000 in interest and other income and a decrease of \$192,000 in asset management fees.

Core FFO attributable to common stockholders<sup>(4)</sup> was \$(7.1) million, or \$(0.31) per diluted share of common stock, for the three months ended September 30, 2023, compared to \$(1.5) million, or \$(0.07) per diluted share of common stock, for the same period in 2022. The decrease in Core FFO is attributable to the aforementioned changes in FFO, while not impacted by the increase in redeemable preferred stock redemptions as these are excluded from our Core FFO calculation.

## **Segment Information**

Our reportable segments during the three months ended September 30, 2023 and 2022 consisted of three types of commercial real estate properties, namely, office, hotel and multifamily, as well as a segment for our lending business. Total segment net operating income (“NOI”)<sup>(5)</sup> was \$11.2 million for the three months ended September 30, 2023, compared to \$10.1 million for the same period in 2022.

### Office

#### *Same-Store*

Same-store<sup>(2)</sup> office segment NOI<sup>(5)</sup> increased to \$7.4 million for the three months ended September 30, 2023, compared to \$6.6 million in the same period in 2022, while same-store<sup>(1)</sup> office Cash NOI<sup>(6)</sup> increased to \$7.9 million for the three months ended September 30, 2023, compared to \$6.9 million in the same period in 2022. The increases in same-store<sup>(1)</sup> office Cash NOI<sup>(6)</sup> and same-store<sup>(2)</sup> office segment NOI<sup>(5)</sup> were primarily attributable to an increase in rental revenue at an office property in Beverly Hills, California, due to increased occupancy and rental rates as well as a decrease in real estate tax expenses at an office property in Austin, Texas .

At September 30, 2023, the Company’s same-store<sup>(2)</sup> office portfolio was 82.1% occupied, a decrease of 70 basis points year-over-year on a same-store<sup>(2)</sup> basis, and 83.9% leased, a decrease of 180 basis points year-over-year on a same-store<sup>(2)</sup> basis. The annualized rent per occupied square foot<sup>(7)</sup> on a same-store<sup>(2)</sup> basis was \$57.04 at September 30, 2023 compared to \$54.47 at September 30, 2022. During the three months ended September 30, 2023, the Company executed 29,291 square feet of leases with terms longer than 12 months at our same-store<sup>(2)</sup> office portfolio.

#### *Total*

Office Segment NOI<sup>(5)</sup> increased to \$9.3 million for the three months ended September 30, 2023, from \$6.5 million for the same period in 2022. The increase is due to the increase in same-store<sup>(2)</sup> office segment NOI<sup>(5)</sup> discussed above as well as an increase in non-same-store<sup>(2)</sup> office Segment NOI<sup>(5)</sup> of \$2.0 million, which was driven by income from an unconsolidated office entity primarily due to an unrealized gain on the value of its investments in real estate recognized during the three months ended September 30, 2023.

## Hotel

Hotel Segment NOI<sup>(5)</sup> decreased to \$1.9 million for the three months ended September 30, 2023, from \$2.4 million for the same period in 2022, primarily due to a decrease in food and beverage revenue and parking revenue. Additionally, hotel occupancy decreased while average daily rate increased.

	<b>Three Months Ended September 30,</b>	
	<b>2023</b>	<b>2022</b>
Occupancy	68.9 %	73.7 %
Average daily rate <sup>(a)</sup>	\$ 175.91	\$ 164.33
Revenue per available room <sup>(b)</sup>	\$ 121.14	\$ 121.03

(a) Calculated as trailing 3-month room revenue divided by the number of rooms occupied.

(b) Calculated as trailing 3-month room revenue divided by the number of available rooms.

## Multifamily

Our Multifamily Segment consists of two multifamily buildings located in Oakland, California as well as an investment in a multifamily building in the Echo Park neighborhood of Los Angeles, California through a 50% joint-venture partnership, all of which were acquired during the first quarter of 2023. Our Multifamily Segment NOI<sup>(5)</sup> was \$(391,000) for the three months ended September 30, 2023. As of September 30, 2023, our Multifamily Segment was 84.1% occupied and the monthly rent per occupied unit<sup>(8)</sup> was \$2,869.

## Lending

Our lending segment primarily consists of our SBA 7(a) lending platform, which is a national lender that primarily originates loans to small businesses in the hospitality industry. Lending Segment NOI<sup>(5)</sup> was \$366,000 for the three months ended September 30, 2023, compared to \$1.2 million for the same period in 2022. The decrease was primarily due to an increase in interest expense related to the issuance of new SBA 7(a) loan-backed notes in connection with the securitization that closed in March 2023, partially offset by an increase in revenues driven by an increase in interest income as a result of the raising interest rate environment.

## **Debt and Equity**

During the three months ended September 30, 2023, we issued 1,094,386 shares of Series A1 Preferred Stock for aggregate net proceeds of \$25.1 million. Net proceeds represent gross proceeds offset by costs specifically identifiable to the offering, such as commissions, dealer manager fees and other offering fees and expenses. Additionally, during the three months ended September 30, 2023, we had net incremental paydowns of \$15.0 million on our revolving credit facility.

## **Dividends**

On September 27, 2023, we declared a quarterly cash dividend of \$0.0850 per share of our common stock, which was paid on October 23, 2023.

On October 13, 2023, we declared a quarterly cash dividend of \$0.34375 per share of our Series A Preferred Stock for the third quarter of 2023. The dividend will be payable monthly as follows: \$0.114583 per share to be paid on November 15, 2023 to Series A Preferred Stockholders of record on November 5, 2023; \$0.114583 per share to be paid on December 15, 2023 to Series A Preferred Stockholders of record on December 5, 2023; and \$0.114583 per share to be paid on January 15, 2024 to Series A Preferred Stockholders of record on January 5, 2024.

On October 13, 2023, we declared a quarterly cash dividend of \$0.489375 per share of our Series A1 Preferred Stock for the third quarter of 2023. The quarterly cash dividend of \$0.489375 per share represents an annualized dividend rate of 7.83% (2.5% plus the federal funds rate of 5.33% on the applicable determination date). The dividend will be payable monthly as follows: \$0.163125 per share to be paid on November 15, 2023 to Series A1 Preferred Stockholders of record on November 5, 2023; \$0.163125 per share to be paid on December 15, 2023 to Series A1 Preferred Stockholders of record on December 5, 2023; and \$0.163125 per share to be paid on January 15, 2024 to Series A1 Preferred Stockholders of record on January 5, 2024. For shares of Series A1 Preferred Stock issued in the fourth quarter of 2023, the dividend will be prorated from the date of issuance, and the monthly dividend payments will reflect such proration.

On July 12, 2023, we declared a quarterly cash dividend of \$0.353125 per share of our Series D Preferred Stock for the fourth quarter of 2023. The dividend will be payable monthly as follows: \$0.117708 per share to be paid on November 15, 2023 to Series D Preferred Stockholders of record on November 5, 2023; \$0.117708 per share to be paid on December 15, 2023 to Series D Preferred Stockholders of record on December 5, 2023; and \$0.117708 per share to be paid on January 15, 2024 to Series D Preferred Stockholders of record on January 5, 2024.

## About the Data

Descriptions of certain performance measures, including Segment NOI, Cash NOI, FFO attributable to common stockholders, and Core FFO are provided below. Refer to the subsequent tables for reconciliation of these non-GAAP financial measures to the most directly comparable GAAP financial measure.

- (1) **Stabilized office portfolio**: represents office properties where occupancy was not impacted by a redevelopment or repositioning during the period.
- (2) **Same-store properties**: are properties that we have owned and operated in a consistent manner and reported in our consolidated results during the entire span of the periods being reported. We excluded from our same-store property set this quarter any properties (i) acquired on or after July 1, 2022; (ii) sold or otherwise removed from our consolidated financial statements on or before September 30, 2023; or (iii) that underwent a major repositioning project we believed significantly affected its results at any point during the period commencing on July 1, 2022 and ending on September 30, 2023. When determining our same-store properties as of September 30, 2023, one property was excluded pursuant to (i) and (iii) above and no properties were excluded pursuant to (ii) above.
- (3) **FFO attributable to common stockholders**: represents net income (loss) attributable to common stockholders, computed in accordance with GAAP, which reflects the deduction of redeemable preferred stock dividends accumulated, excluding gain (or loss) from sales of real estate, impairment of real estate, and real estate depreciation and amortization. We calculate FFO in accordance with the standards established by the National Association of Real Estate Investment Trusts (the “NAREIT”). See ‘Core FFO’ definition below for discussion of the benefits and limitations of FFO as a supplemental measure of operating performance.
- (4) **Core FFO attributable to common stockholders (“Core FFO”)**: represents FFO attributable to common stockholders (computed as described above), excluding gain (loss) on early extinguishment of debt, redeemable preferred stock deemed dividends, redeemable preferred stock redemptions, gain (loss) on termination of interest rate swaps, and transaction costs.

We believe that FFO is a widely recognized and appropriate measure of the performance of a REIT and that it is frequently used by securities analysts, investors and other interested parties in the evaluation of REITs, many of which present FFO when reporting their results. In addition, we believe that Core FFO is a useful metric for securities analysts, investors and other interested parties in the evaluation of our Company as it excludes from FFO the effect of certain amounts that we believe are non-recurring, are non-operating in nature as they relate to the manner in which we finance our operations, or transactions outside of the ordinary course of business.

Like any metric, FFO and Core FFO should not be used as the only measure of our performance because it excludes depreciation and amortization and captures neither the changes in the value of our real estate properties that result from use or

market conditions nor the level of capital expenditures and leasing commissions necessary to maintain the operating performance of our properties, and Core FFO excludes amounts incurred in connection with non-recurring special projects, prepaying or defeasing our debt, repurchasing our preferred stock, and adjusting the carrying value of our preferred stock classified in temporary equity to its redemption value, all of which have real economic effect and could materially impact our operating results. Other REITs may not calculate FFO and Core FFO in the same manner as we do, or at all; accordingly, our FFO and Core FFO may not be comparable to the FFOs and Core FFOs of other REITs. Therefore, FFO and Core FFO should be considered only as a supplement to net income (loss) as a measure of our performance and should not be used as a supplement to or substitute measure for cash flows from operating activities computed in accordance with GAAP. FFO and Core FFO should not be used as a measure of our liquidity, nor is it indicative of funds available to fund our cash needs, including our ability to pay dividends. FFO and Core FFO per share for the year-to-date period may differ from the sum of quarterly FFO and Core FFO per share amounts due to the required method for computing per share amounts for the respective periods. In addition, FFO and Core FFO per share is calculated independently for each component and may not be additive due to rounding.

(5) **Segment NOI:** for our real estate segments represents rental and other property income and expense reimbursements less property related expenses and excludes non-property income and expenses, interest expense, depreciation and amortization, corporate related general and administrative expenses, gain (loss) on sale of real estate, gain (loss) on early extinguishment of debt, impairment of real estate, transaction costs, and benefit (provision) for income taxes. For our lending segment, Segment NOI represents interest income net of interest expense and general overhead expenses. See ‘Cash NOI’ definition below for discussion of the benefits and limitations of Segment NOI as a supplemental measure of operating performance.

(6) **Cash NOI:** for our real estate segments, represents Segment NOI adjusted to exclude the effect of the straight lining of rents, acquired above/below market lease amortization and other adjustments required by generally accepted accounting principles (“GAAP”). For our lending segment, there is no distinction between Cash NOI and Segment NOI. We also evaluate the operating performance and financial results of our operating segments using cash basis NOI excluding lease termination income, or “Cash NOI excluding lease termination income”.  
Segment NOI and Cash NOI are not measures of operating results or cash flows from operating activities as measured by GAAP and should not be considered alternatives to income from continuing operations, or to cash flows as a measure of liquidity, or as an indication of our performance or of our ability to pay dividends. Companies may not calculate Segment NOI or Cash NOI in the same manner. We consider Segment NOI and Cash NOI to be useful performance measures to investors and management because, when compared across periods, they reflect the revenues and expenses directly associated with owning and operating our properties and the impact to operations from trends in occupancy rates, rental rates and operating costs, providing a perspective not immediately apparent from income from continuing operations. Additionally, we believe that Cash NOI is helpful to investors because it eliminates straight line rent and other non-cash adjustments to revenue and expenses.

(7) **Annualized rent per occupied square foot:** represents gross monthly base rent under leases commenced as of the specified periods, multiplied by twelve. This amount reflects total cash rent before abatements. Where applicable, annualized rent has been grossed up by adding annualized expense reimbursements to base rent. Annualized rent for certain office properties includes rent attributable to retail.

(8) **Monthly rent per occupied unit:** Represents gross monthly base rent under leases commenced as of the specified period, divided by occupied units. This amount reflects total cash rent before concessions.

**Capital Returned to Shareholders** The amounts of regular and special cash dividends per share are based on the number of shares outstanding as of the applicable record dates. All amounts have been adjusted to give retroactive effect to the reverse stock split that occurred in 2019. Past performance is not indicative of future results. CMCT is the product of a merger (the "Merger") between a subsidiary of CIM Urban REIT, LLC ("CIM REIT"), a fund operated by CIM Group, and PMC Commercial Trust ("PMC"), a publicly traded mortgage real estate investment trust, consummated in Q1 2014. Represents dividends paid on our common stock from January 1, 2014 through September 30, 2020. Excludes a special dividend paid to PMC Commercial Trust's stockholders in connection with the Merger, but includes 2014 dividends received by CIM REIT stockholders prior to the Merger and dividends on convertible preferred stock received by Urban Partners II, LLC, an affiliate of CIM REIT and CIM Group, on an as converted basis, in the Merger. The per share equivalent in proceeds from CMCT's June 2016 tender offer is \$6.45, calculated by dividing \$210,000,000, the amount used by CMCT to purchase shares of common stock of CMCT in the tender offer, by 32,558,732, the number of shares of common stock outstanding immediately prior to such tender offer, as adjusted to give retroactive effect to the reverse stock split that occurred in 2019.

**Funds From Operations (FFO)** The Company believes that funds from operations ("FFO"), a non-GAAP measure, is a widely recognized and appropriate measure of the performance of a REIT and that it is frequently used by securities analysts, investors and other interested parties in the evaluation of REITs, many of which present FFO when reporting their results. FFO represents net income (loss) attributable to common stockholders, computed in accordance with GAAP, which reflects the deduction of redeemable preferred stock dividends accumulated, excluding gains (or losses) from sales of real estate, impairment of real estate, and real estate depreciation and amortization. The Company calculates FFO in accordance with the standards established by the National Association of Real Estate Investment Trusts (the "NAREIT").

Like any metric, FFO should not be used as the only measure of our performance because it excludes depreciation and amortization and captures neither the changes in the value of our real estate properties that

result from use or market conditions nor the level of capital expenditures and leasing commissions necessary to maintain the operating performance of our properties, all of which have real economic effect and could materially impact our operating results. Other REITs may not calculate FFO in accordance with the standards established by the NAREIT; accordingly, our FFO may not be comparable to the FFOs of other REITs. Therefore, FFO should be considered only as a supplement to net income (loss) as a measure of our performance and should not be used as a supplement to or substitute measure for cash flows from operating activities computed in accordance with GAAP. FFO should not be used as a measure of our liquidity, nor is it indicative of funds available to fund CMCT's cash needs, including CMCT's ability to pay dividends.

**Adjusted Funds From Operations (AFFO)** AFFO is a non-GAAP, non-standardized measure which is widely reported by REITs. Other REITs may use different methodologies for calculating AFFO and, as a result, CMCT's AFFO may not be comparable to the AFFO of other REITs. CMCT calculates AFFO by (a) eliminating the impact on FFO of (i) straight-line rent revenue and expense; (ii) amortization of lease inducements; (iii) amortization of above and below market leases (including ground leases); (iv) amortization of above and below market debt, loan premiums and discounts, and deferred loan costs; (v) amortization of tax abatement; (vi) amortization of loan receivable discount and accretion of fees on loans receivable; (vii) unrealized premium adjustment; (viii) deferred income tax expense; (ix) non-cash compensation expense; (x) loss on early extinguishment of debt; (xi) redeemable preferred stock redemptions; and (xii) redeemable preferred stock deemed dividends and (b) subtracting (i) lease inducement payments and (ii) recurring capital expenditures and recurring tenant improvements and leasing commissions.

AFFO is not intended to represent cash flow but may provide additional perspective on CMCT's operating results and our ability to fund cash needs and pay dividends. AFFO should only be considered as a supplement to net income.
