## **Explanations:**

1. If the change affects more than one security, the impact must be detailed in a separate row for each security.
2. Change Date – All changes of the same type, for the same security, carried out on the same day, should be summarized in one row. In this regard, changes via TASE Clearinghouse should be distinguished from changes made directly in the company books.
3. For a decrease, add the sign "-".
4. All quantity fields should specify the number of securities, not NIS par value.
