CSE Global records S$199.1 million in new orders for 2Q2026

Singapore, 5 August 2026 – **CSE Global Limited** ("**CSE Global**" or the "**Group**"), a global systems integrator providing electrification, communications and automation solutions, today announced that it secured S$199.1 million of new orders in the second quarter ended 30 June 2026 ("**2Q2026**").

Mr Lim Boon Kheng, Group Managing Director / Chief Executive Officer of CSE Global, said, "Following a strong start to the year, order intake saw some year-on-year seasonality in terms of the timing of contract awards. Despite the uncertain operating environment, we believe our proven capabilities and long-standing customer relationships position us well to continue securing new orders. Demand across our key markets remains healthy, supported by a robust tender pipeline. We remain focused on converting this pipeline selectively, executing our order book with discipline and delivering projects on schedule."

The Communications business segment contributed approximately 39.6% of the Group's total order intake in 2Q2026, with order intake increasing 8.9% year-on-year to S$78.9 million. The growth was primarily driven by stronger order flows in the Australia and New Zealand markets.

The Electrification business segment secured S$63.9 million of new orders, which represented approximately 32.2% of the Group's total order intake during the quarter. In 2Q2026, the total order intake for the Electrification business segment was 29.0% lower year-on-year, mainly due to a timing difference arising from the replacement of a purchase order, with the new purchase order expected to be received in the subsequent quarter.
