

Elbit Systems' U.S. Subsidiary to Supply Boeing with Color Helmet Mounted Displays for the U.S. Air Force CV-22 Air Crews

Haifa, Israel, September 6, 2011 – Elbit Systems Ltd. (NASDAQ and TASE: ESLT) ("Elbit Systems") announced that its U.S. subsidiary, Elbit Systems of America, LLC ("Elbit Systems of America"), has been awarded a contract to supply Boeing Military Aircraft with the CV-22 Color Helmet Mounted Display (HMD) for the Air Force Special Operations Command (AFSOC). Work will be performed in Fort Worth, Texas. The contract, which is not in an amount that is material to Elbit Systems, will allow Elbit Systems of America to provide the U.S. Air Force with a Color HMD that includes full helmet tracking capability and effectively meets AFSOC objectives in the near and long term.

Coupling Helmet Display and Tracking System (HDTs) technology with new color symbology for day and night vision goggle night missions, AFSOC CV-22 crews will attain a higher level of situational awareness, allowing them to fly heads up and eyes out. This capability is crucial today and in the battle space of the future. Elbit Systems' Color HMD with head tracking capability delivers this important solution while also providing a growth path to a myriad of situational awareness solutions.

The color HMD is based on the proven Elbit Systems ANVIS/HUD[®] system which has been in use by U.S. Army, U.S. Navy, U.S. Marines, U.S. Coast Guard and U.S. Air Force rotary wing/tilt rotor pilots for many years. Elbit Systems of America is a long-time valued silver-rated supplier to Boeing Military Aircraft for the V-22 program.

Elbit Systems of America President and Chief Executive Officer, Raanan Horowitz, commented: "We are pleased to have been selected by Boeing to provide cutting-edge technology for the warfighter, delivering high quality color Helmet Mounted Displays to support critical missions and needs. Elbit Systems of America is a leader in developing, producing and deploying helmet mounted display systems for many customers and applications. Our systems are proven, offering situational awareness and added safety to military forces on various platforms."

About Elbit Systems

Elbit Systems Ltd. is an international defense electronics company engaged in a wide range of programs throughout the world. This press release contains forward-looking statements (within the meaning of Section 27A of the Securities Act of 1933, as amended and Section 21E of the Securities Exchange Act of 1934, as amended) regarding Elbit Systems Ltd. and/or its subsidiaries (collectively the Company), to the extent such statements do not relate to historical or current fact. Forward Looking Statements are based on management's expectations, estimates, projections and assumptions. Forward-looking statements are made pursuant to the safe harbor provisions of the Private Securities Litigation Reform Act of 1995, as amended. These statements are not guarantees of future performance and involve certain risks and uncertainties, which are difficult to predict. Therefore, actual future results, performance and trends may differ materially from these forward-looking statements due to a variety of factors, including, without limitation: scope and length of customer contracts; governmental regulations and approvals; changes in governmental budgeting priorities; general market, political and economic conditions in the countries in which the Company operates or sells, including Israel and the United States among others; differences in anticipated and actual program performance, including the ability to perform under long-term fixed-price contracts; and the outcome of legal and/or regulatory proceedings. The factors listed above are not all-inclusive, and further information is contained in Elbit Systems Ltd.'s latest annual report on Form 20-F, which is on file with the U.S. Securities and Exchange Commission. All forward-looking statements speak only as of the date of this release. The Company does not undertake to update its forward-looking statements.
