Elbit Systems Ltd. (the "Company") (NASDAQ and TASE: ESLT) is disclosing in this report on Form 6-K that, in compliance with recently recommended corporate governance criteria, the Company's board of directors approved, in a board meeting held on November 23, 2011, an additional proposed amendment to the Company's Articles of Association as provided in Section A of Annex A of the Company's Proxy Statement dated October 25, 2011 (the "Proxy Statement") that will be brought to the approval of the Company's Shareholders' Annual General Meeting.

Article 34 (h) of the Company's Articles of Association currently provides that any indemnification granted by the Company pursuant to Article 34 shall not exceed twenty-five percent (25%) of the consolidated equity of the Company as reflected in its last consolidated Annual Financial Statements published prior to the payment of such indemnification. Recent corporate governance practices recommend that the above limitation of twenty-five percent (25%) should be calculated on the basis of the most recent shareholders equity of the Company, as appears in the most recent Company consolidated financial statements prior to the date of the indemnification payment.

In accordance with the above, it is proposed that Article 34 (h) of the Company's Articles of Associations shall be amended to read as follows:

"34(h) Notwithstanding the above, any indemnification granted by the Company under this Article 34 shall not exceed 25% (twenty-five percent) ~~25%~~ of the Company's shareholders consolidated equity, as reflected in the last according to the most recent Company consolidated Annual Financial Statements published prior to the payment date of such the indemnification payment".

The above amendment shall be deemed incorporated in Section A of Annex A of the Company's Proxy Statement and is included in the Proxy Statement in ITEM 2 - AMENDMENTS TO THE COMPANY'S ARTICLES OF ASSOCIATION – Section A - Amendments to Allow Indemnification and Insurance to the Full Extent Permitted by Law..
