### Non-GAAP financial data:

The following non-GAAP financial data is presented to enable investors to have additional information on the Company's business performance as well as a further basis for periodical comparisons and trends relating to the Company's financial results. The Company believes such data provides useful information to investors by facilitating more meaningful comparisons of the Company's financial results over time. Such non-GAAP information is used by the Company's management to make strategic decisions, forecast future results and evaluate the Company's current performance. However, investors are cautioned that, unlike financial measures prepared in accordance with GAAP, non-GAAP measures may not be comparable with the calculation of similar measures for other companies.

The non-GAAP financial data includes reconciliation adjustments regarding non-GAAP gross profit, operating income, net income and diluted EPS. In arriving at non-GAAP presentations, companies generally factor out items such as those that have a non-recurring impact on the income statements, various non-cash items, significant effects of retroactive tax legislation and changes in accounting guidance and other items which, in management's judgment, are items that are considered to be outside of the review of core operating results.

In the Company's non-GAAP presentation, the Company made certain adjustments as indicated in the table below.

These non-GAAP measures are not based on any comprehensive set of accounting rules or principles. The Company believes that non-GAAP measures have limitations in that they do not reflect all of the amounts associated with the Company's results of operations, as determined in accordance with GAAP, and that these measures should only be used to evaluate the Company's results of operations in conjunction with the corresponding GAAP measures. Investors should consider non-GAAP financial measures in addition to, and not as replacements for or superior to, measures of financial performance prepared in accordance with GAAP.
