

Elbit Systems MUSIC™ self-protection DIRCM solution marks another milestone, this time in Germany:

Elbit Systems Awarded a Contract to Supply DIRCM Systems for the German Air Force's New A400M Aircraft

Haifa, Israel, November 17, 2014 - Elbit Systems Ltd. (NASDAQ and TASE :ESLT) ("Elbit Systems") announced today that it was awarded a contract from DIEHL BGT Defence GmbH & Co. KG ("DIEHL Defence") to provide J-MUSIC™ Multi-Spectral Directed Infrared Counter Measure (DIRCM) systems for the first phase of the German Air Force's Self-Protection program for its new Airbus A400 aircraft. The contract will be performed over approximately one-year and is in an amount that is not material to Elbit Systems.

Designed to protect large military and commercial aircraft against attacks by ground to air heat seeking man-portable missiles (MANPADS), the J-MUSIC systems, will be integrated into a multi-turret DIRCM system, ensuring 360° protection of the aircraft.

Elbit Systems has completed extensive testing of the J-MUSIC system and has already delivered systems to equip several types of aircraft to various customers.

Bezhalet (Butzi) Machlis, President and CEO of Elbit Systems, commented: "We are proud of our cooperation with DIEHL Defence on DIRCM that has resulted in this initial contract for the protection of the German Air Force's A400M aircraft. Our DIRCM systems provide effective protection to the growing threat of MANPADS, and we hope that additional customers will follow and select our systems as their preferred solution".

The C-MUSIC DIRCM system, another member of Elbit Systems DIRCM family, was developed for the Israeli National "Sky Shield" program, for the protection of the Israeli large commercial aircraft fleet.

About Elbit Systems

This press release contains forward-looking statements (within the meaning of Section 27A of the Securities Act of 1933, as amended and Section 21E of the Securities Exchange Act of 1934, as amended) regarding Elbit Systems Ltd. and/or its subsidiaries (collectively the Company), to the extent such statements do not relate to historical or current fact. Forward Looking Statements are based on management's expectations, estimates, projections and assumptions. Forward-looking statements are made pursuant to the safe harbor provisions of the Private Securities Litigation Reform Act of 1995, as amended. These statements are not guarantees of future performance and involve certain risks and uncertainties, which are difficult to predict. Therefore, actual future results, performance and trends may differ materially from these forward-looking statements due to a variety of factors, including, without limitation: scope and length of customer contracts;

governmental regulations and approvals; changes in governmental budgeting priorities; general market, political and economic conditions in the countries in which the Company operates or sells, including Israel and the United States among others; differences in anticipated and actual program performance, including the ability to perform under long-term fixed-price contracts; and the outcome of legal and/or regulatory proceedings. The factors listed above are not all-inclusive, and further information is contained in Elbit Systems Ltd.'s latest annual report on Form 20-F, which is on file with the U.S. Securities and Exchange Commission. All forward-looking statements speak only as of the date of this release. The Company does not undertake to update its forward-looking statements.
