

Elbit Systems' Cyber Subsidiary, CYBERBIT, Awarded Contracts by European and African Customers

Haifa, Israel, August 30, 2015 – Elbit Systems Ltd. ("Elbit Systems") (NASDAQ and TASE: ESLT), announced today that its wholly-owned subsidiary, CYBERBIT Ltd. ("CYBERBIT"), was recently awarded two contracts. One of the contracts was awarded by the National Police of a European country, and the second contract was awarded by a law enforcement agency of an African country. Each of the contracts, which are in a total amount that is not material to Elbit Systems, will be performed over a two-year period.

CYBERBIT, established several months ago, is comprised of Elbit Systems cyber activities, and includes the recently acquired Cyber and Intelligence division of NICE Systems, which was awarded the above-mentioned contracts.

CYBERBIT solutions provide law enforcement agencies, intelligence organizations and signal intelligence (SIGINT) agencies with end to end tools for creating communication intelligence on all known media and devices. CYBERBIT's solutions address the entire intelligence cycle, including collection, processing, analysis and visualization.

Adi Dar, General Manager of CYBERBIT commented: "We are pleased with the award of these two contracts that attest to the innovative capabilities of CYBERBIT's SIGINT systems, which integrate our advanced TARGET 360 interception platform with cutting edge cyber domain collection capabilities. I believe this unique operational concept, as well as the most advanced technologies which are the core of the system, will encourage additional customers to follow and select our systems".

About Elbit Systems

Elbit Systems Ltd. is an international high technology company engaged in a wide range of defense, homeland security and commercial programs throughout the world. The Company, which includes Elbit Systems and its subsidiaries, operates in the areas of aerospace, land and naval systems, command, control, communications, computers, intelligence surveillance and reconnaissance ("C4ISR"), unmanned aircraft systems, advanced electro-optics, electro-optic space systems, EW suites, signal intelligence systems, data links and

This press release contains forward-looking statements (within the meaning of Section 27A of the Securities Act of 1933, as amended and Section 21E of the Securities Exchange Act of 1934, as amended) regarding Elbit Systems Ltd. and/or its subsidiaries (collectively the Company), to the extent such statements do not relate to historical or current fact. Forward-looking statements are based on management's expectations, estimates, projections and assumptions. Forward-looking statements are made pursuant to the safe harbor provisions of the Private Securities Litigation Reform Act of 1995, as amended. These statements are not guarantees of future performance and involve certain risks and uncertainties, which are difficult to predict. Therefore, actual future results, performance and trends may differ materially from these forward-looking statements due to a variety of factors, including, without limitation: scope and length of customer contracts; governmental regulations and approvals; changes in governmental budgeting priorities; general market, political and economic conditions in the countries in which the Company operates or sells, including Israel and the United States among others; differences in anticipated and actual program performance, including the ability to perform under long-term fixed-price contracts; and the outcome of legal and/or regulatory proceedings. The factors listed above are not all-inclusive, and further information is contained in Elbit Systems Ltd.'s latest annual report on Form 20-F, which is on file with the U.S. Securities and Exchange Commission. All forward-looking statements speak only as of the date of this release. The Company does not undertake to update its forward-looking statements.

Elbit Systems Ltd., its logo, brand, product, service and process names appearing in this Press Release are the trademarks or service marks of Elbit Systems Ltd. or its affiliated companies. All other brand, product, service and process names appearing are the trademarks of their respective holders. Reference to or use of a product, service or process other than those of Elbit Systems Ltd. does not imply recommendation, approval, affiliation or sponsorship of that product, service or process by Elbit Systems Ltd. Nothing contained herein shall be construed as conferring by implication, estoppel or otherwise any license or right under any patent, copyright, trademark or other intellectual property right of Elbit Systems Ltd. or any third party, except as expressly granted herein.
