

Elbit Systems Awarded an Approximately \$78 Million Contract to Provide a European Country with UAS-Based Advanced Intelligence Systems

Haifa, Israel, September 6, 2015 – Elbit Systems Ltd. (NASDAQ and TASE: ESLT) (“Elbit Systems”), announced today that it was awarded a contract from a European country to supply an Unmanned Aircraft System (UAS)-based cutting-edge intelligence solution. Valued at approximately \$78 million, the contract will be performed over a two-year period by Elbit Systems’ ISTAR Division, established several months ago, as a result of combining Elbit Systems’ Electro-optics – Elop and UAS Divisions.

Elbit Systems’ solution will consist, among other elements, of AMPS (Advanced Multi-Sensor Payload System) - a multi-sensor electro-optics system capable of long-range visual intelligence for both day and night. The system is adaptable for a large variety of airborne applications and serves as an important building block for the integrated intelligence solution.

Elad Aharonson, General Manager of Elbit Systems ISTAR Division commented: “We are proud of this contract award to supply a solution that answers the current and future requirements of the high level intelligence systems’ market. We develop and tailor end-to-end solutions that meet the demands and specific expectations of our customers. I believe that our systematic capabilities, that enable an optimal integration between UAS and our intelligence systems, will enhance our position as a world leader in ISTAR activities resulting in further achievements in the international market”.

About Elbit Systems

Elbit Systems Ltd. is an international high technology company engaged in a wide range of defense, homeland security and commercial programs throughout the world. The Company, which includes Elbit Systems and its subsidiaries, operates in the areas of aerospace, land and naval systems, command, control, communications, computers, intelligence surveillance and reconnaissance (“C4ISR”), unmanned aircraft systems, advanced electro-optics, electro-optic space systems, EW suites, signal intelligence systems, data links and communications systems, radios and cyber-based systems. The Company also focuses on the upgrading of existing platforms, developing new technologies for

defense, homeland security and commercial applications and providing a range of support services, including training and simulation systems.

This press release contains forward-looking statements (within the meaning of Section 27A of the Securities Act of 1933, as amended and Section 21E of the Securities Exchange Act of 1934, as amended) regarding Elbit Systems Ltd. and/or its subsidiaries (collectively the Company), to the extent such statements do not relate to historical or current fact. Forward-looking statements are based on management's expectations, estimates, projections and assumptions. Forward-looking statements are made pursuant to the safe harbor provisions of the Private Securities Litigation Reform Act of 1995, as amended. These statements are not guarantees of future performance and involve certain risks and uncertainties, which are difficult to predict. Therefore, actual future results, performance and trends may differ materially from these forward-looking statements due to a variety of factors, including, without limitation: scope and length of customer contracts; governmental regulations and approvals; changes in governmental budgeting priorities; general market, political and economic conditions in the countries in which the Company operates or sells, including Israel and the United States among others; differences in anticipated and actual program performance, including the ability to perform under long-term fixed-price contracts; and the outcome of legal and/or regulatory proceedings. The factors listed above are not all-inclusive, and further information is contained in Elbit Systems Ltd.'s latest annual report on Form 20-F, which is on file with the U.S. Securities and Exchange Commission. All forward-looking statements speak only as of the date of this release. The Company does not undertake to update its forward-looking statements.
