

Elbit Systems to Supply Uruguay with a “Safe District” Project under a Contract of Approximately \$19 Million

The project will span across six municipal authorities, over 2000 km², including the renowned Punta Del Este tourist resort

Haifa, Israel, July 10, 2016 – Elbit Systems Ltd. (NASDAQ and TASE: ESLT) ("Elbit Systems") announced today it was awarded an approximately \$19 million contract from the Maldonado District Administration in Uruguay, to provide a Safe District project. The project will span across six municipal authorities, including the well-known Punta Del Este tourist resort, over a total of 2000 km². The contract will be performed by the Elbit Systems' subsidiary, Elbit Security Systems Ltd. (ELSEC), over a two-year period.

The Safe District project will include more than 1000 cameras and sensors, including vehicle traffic control, laid out at strategic standpoints. The collected information will be transferred to a control center, which will include C2 (command and control) systems with unique analytics capabilities. The sensors and cameras infrastructure will allow the operators of the control room to obtain real-time data from the field and alert law enforcement officials, including logistics and emergency personnel, in conjunction with the nature of the event.

“We are proud to have won this Safe District contract, demonstrating our ISR (Intelligence, Surveillance and Reconnaissance) and HLS (Homeland Security) capabilities. I hope that more customers, with similar needs will follow the Maldonado District and will choose our unique operational solution as the means to maintain the security of both tourists and residents” commented Elad Aharonson, Elbit Systems ISTAR Division's General Manager.

About Elbit Systems

This press release contains forward-looking statements (within the meaning of Section 27A of the Securities Act of 1933, as amended and Section 21E of the Securities Exchange Act of 1934, as amended) regarding Elbit Systems Ltd. and/or its subsidiaries (collectively the Company), to the extent such statements do not relate to historical or current fact. Forward-looking statements are based on management's expectations, estimates, projections and assumptions. Forward-looking statements are made pursuant to the safe harbor provisions of the Private Securities Litigation Reform Act of 1995, as amended. These statements are not guarantees of future performance and involve certain risks and uncertainties, which are difficult to predict. Therefore, actual future results, performance and trends may differ materially from these forward-looking statements due to a variety of factors, including, without limitation: scope and length of customer contracts; governmental regulations and approvals; changes in governmental budgeting priorities; general market, political and economic conditions in the countries in which the Company operates or sells, including Israel and the United States among others; differences in anticipated and actual program performance, including the ability to perform under long-term fixed-price contracts; and the outcome of legal and/or regulatory proceedings. The factors listed above are not all-inclusive, and further information is contained in Elbit Systems Ltd.'s latest annual report on Form 20-F, which is on file with the U.S. Securities and Exchange Commission. All forward-looking statements speak only as of the date of this release. The Company does not undertake to update its forward-looking statements.
