

Elbit Systems' Subsidiary, Cyberbit, Selected by Samsung SDS to Provide Advanced Cyber Security Solutions

Cyberbit's SCADAShield solution will be delivered by Samsung SDS to protect its customers' industrial control networks

Haifa, Israel, November 16, 2016 – Elbit Systems Ltd. (NASDAQ and TASE: ESLT) ("Elbit Systems") announced today that Samsung SDS Co. Ltd. (Samsung SDS), a subsidiary of the Samsung group and a global leading IT services company, selected Cyberbit Ltd. ("Cyberbit"), the company protecting some of the world's most sensitive organizations against cyber threats, to protect customers against attacks on industrial control systems.

Industrial control networks are prime targets for cyberattacks and use legacy technologies that challenge conventional security systems. Samsung SDS and Cyberbit will collaborate to deploy Cyberbit's [SCADAShield](#), a non-intrusive deep-packet inspection system, optimized for ICS/SCADA networks, in the Korean market. [SCADAShield](#) will protect customers' critical infrastructure against cyberattacks, minimize continuity risks and improve network managers' visibility across their ICS networks.

"Critical infrastructure facilities are particularly vulnerable to cyberattacks because of their legacy hardware, unique communication protocols and the lack of security awareness among operational network managers." said Adi Dar, Cyberbit's General Manager. "We will collaborate with Samsung to bridge this gap and help organizations in the Asia Pacific region to protect themselves from critical cyberattacks of potentially massive scale." added Dar.

Sung Won Han, VP Cyber Security Team, Samsung SDS said, "We look forward to collaborating with Cyberbit. Our customers will be able to enhance resilience and competitiveness in the core infrastructure related to manufacturing and control."

About Elbit Systems

Elbit Systems Ltd. is an international high technology company engaged in a wide range of defense, homeland security and commercial programs throughout the world. The Company, which includes Elbit Systems and its subsidiaries, operates in the areas of aerospace, land and naval systems, command, control, communications, computers, intelligence surveillance and reconnaissance ("C4ISR"), unmanned aircraft systems, advanced electro-optics, electro-optic space systems, EW suites, signal intelligence systems, data links and communications systems, radios and cyber-based systems. The Company also focuses on the upgrading of existing platforms, developing new technologies for defense, homeland security and commercial applications and providing a range of support services, including training and simulation systems.

This press release contains forward-looking statements (within the meaning of Section 27A of the Securities Act of 1933, as amended and Section 21E of the Securities Exchange Act of 1934, as amended) regarding Elbit Systems Ltd. and/or its subsidiaries (collectively the Company), to the extent such statements do not relate to historical or current fact. Forward-looking statements are based on management's expectations, estimates, projections and assumptions. Forward-looking statements are made pursuant to the safe harbor provisions of the Private Securities Litigation Reform Act of 1995, as amended. These statements are not guarantees of future performance and involve certain risks and uncertainties, which are difficult to predict. Therefore, actual future results, performance and trends may differ materially from these forward-looking statements due to a variety of factors, including, without limitation: scope and length of customer contracts; governmental regulations and approvals; changes in governmental budgeting priorities; general market, political and economic conditions in the countries in which the Company operates or sells, including Israel and the United States among others; differences in anticipated and actual program performance, including the ability to perform under long-term fixed-price contracts; and the outcome of legal and/or regulatory proceedings. The factors listed above are not all-inclusive, and further information is contained in Elbit Systems Ltd.'s latest annual report on Form 20-F, which is on file with the U.S. Securities and Exchange

Commission. All forward-looking statements speak only as of the date of this release. The Company does not undertake to update its forward-looking statements.

Elbit Systems Ltd., its logo, brand, product, service and process names appearing in this Press Release are the trademarks or service marks of Elbit Systems Ltd. or its affiliated companies. All other brand, product, service and process names appearing are the trademarks of their respective holders. Reference to or use of a product, service or process other than those of Elbit Systems Ltd. does not imply recommendation, approval, affiliation or sponsorship of that product, service or process by Elbit Systems Ltd. Nothing contained herein shall be construed as conferring by implication, estoppel or otherwise any license or right under any patent, copyright, trademark or other intellectual property right of Elbit Systems Ltd. or any third party, except as expressly granted herein.
