There is a voting agreement between Mr. Daniel Zalkind and Mr. Michael Zalkind whereby they coordinate their votes at the company's general meetings. Calculation of the full diluted holding rate is based on (1) the assumption that all dormant shares will be sold and will confer full voting rights; and (2) a theoretical full exercise of all non-traded company options (some currently out-of-the-money), at a ratio of one share per allocated option, even though in practice options are exercised only partially, according to a cashless mechanism. If some assumptions are not realized, the full diluted holding rate will be updated accordingly."
