Ellomay Capital Announces the Execution of a Pre-Hedge Transaction in connection with the Talasol Project

Tel-Aviv, Israel, July 16, 2018 – **Ellomay Capital Ltd.** (NYSE American; TASE: ELLO) (“**Ellomay**” or the “**Company**”), a renewable energy and power generator and developer of renewable energy and power projects in Europe and Israel, today announced that its wholly owned Spanish subsidiary, Talasol Solar S.L. (“**Talasol**”), executed a pre-hedge transaction in connection with the prospective project financing for the construction of a photovoltaic plant with a peak capacity of approximately 300 MW in the municipality of Talaván, Cáceres, Spain (the “**Talasol Project**”).

The pre-hedge transaction is a fixed for floating interest rate swap intended to lock-in current market floating rates. The pre-hedge transaction was executed with Goldman Sachs International.

Talasol is expecting that the Talasol Project’s CAPEX will amount to approximately euro 200-230 million. The Talasol Project is expected to be financed by a consortium led by Deutsche Bank, which is the mandated lead arranger, and the European Investment Bank (EIB). The expected leverage level is in the range of 50-60% of the total investment. Financial closing is expected before the end of 2018 and commencement of operations is expected in the first half of 2020.

Ran Fridrich, CEO and a board member of Ellomay commented: “Talasol is getting near to financial close, and we wanted to make sure that the potential changes in the interest rates won’t have a material effect on its feasibility.”

The continued development of the Talasol Project is subject to risks and uncertainties, including with respect to the occurrence of the conditions subsequent set forth in the Talasol share purchase agreement, and other conditions that are not entirely within the control of the Company or Talasol, as they include the issuance of regulatory approvals and the procurement of project financing on terms acceptable to Talasol. The projected expenses included herein are based on the current expectations and assumptions of the Company and its advisors and are subject to various conditions and circumstances, including the negotiations and final terms of the financing agreement and several other agreements, some of which have not yet been negotiated, finalized and executed. Moreover, the Company and Talasol may, in their sole discretion, decide not to pursue the Talasol Project in the event of changes in the market or other circumstances. For more information concerning these and other risks see below under “Information Relating to Forward-Looking Statements.”
